Guidelines for report\textsuperscript{1} on practicum. Biomedical Engineering Degree

\textsuperscript{1} From to 10 to 15 pages length in English
1. Student data
   - First name:
   - Surname:
   - DNI:
   - NIA:
   - Address:
   - Phone number:
   - E-mail address:

2. General data
   - Name and address of hosting institution:
   - Name of supervisor:
   - Initial and final date:
   - Hours of student work:
   - Income (if any):
   - Number of ECTS credits:
   - Language in which the practicum was achieved:
   - Way of contact with hosting institution:

3.
Hosting institution description

- History
- Organization of institution
- Main goals
- Products / Outcomes
- Existence and role of biomedical engineers in the institution

4. Task description and obtained results

- Context
- Initial objectives
- Available data
- Methodology
- Results
- Conclusions
- Possible future work
- Bibliography

5. Evaluation

- Skills acquired during the practicum
- More relevant competences from the degree used in this practicum
- Personal evaluation of practicum
- Evaluation of relation with supervisor
- Suggestions for improving practicum
- Would you recommend this institution for future TFGs or practicums?
