5. CHECKLIST

This dossier contains very important and basic information which you will find need during the time you spend at UPF.

Make sure you read it through carefully before coming to Barcelona!

Welcome to UPF

We are grateful that you have selected our institution to go on exchange. A young, urban, dynamic and cosmopolitan university that attracts over 600 students each year who, like you, come from all over the world. Thanks to you, UPF is one of the Spanish universities with a higher percentage of international students, which, year after year, goes up in the rankings, thus placing itself as the best in Spain and one of the best in Europe .

This handout aims to make your exchange experience easier and help you plan your successful exchange experience at UPF and Barcelona. From the moment of starting to prepare everything until you come back to your home university, these pages will provide you with an answer to your main concerns.

Please read the handout carefully. We are waiting for you in Barcelona!

1. BEFORE LEAVING YOUR COUNTRY

a. Register as an exchange or visiting student

If you are an exchange student (Erasmus, bilateral agreement or SICUE) or a visiting student, once your university has sent us your nomination (in the first case) or once you have been accepted as a visiting student (in the second), you'll receive an e-mail with all the necessary information to register at UPF. The registration consists in filling in and sending an online form, which may require to upload the following documents:

1. A copy of your identity card or passport.
2. A copy of your medical insurance valid in Barcelona (or declaration document)
3. A passport-size picture

Deadlines for registration:

FIRST TERM	30 May
SECOND AND THIRD TERMS	30 October

Once completed the registration, UPF will send you more information so you can prepare your stay in Barcelona, including the welcome program and information about the process of registration to the courses.

b. Do you need a visa?

If your citizenship belongs to any of the EU countries, the European Economic Area (EEA) or Switzerland, you do not need to follow any administrative procedure before travelling to Barcelona. If your stay is longer than three months, once you are in Barcelona you will need to register at the "[Central Registry Office for Foreigners](#)".

If you don't fall into the stated category, and your stay is longer than 90 days, you must obtain a students' visa from the nearest Spanish embassy or consulate to where you live, before you leave your country. To apply for a visa, you will need an acceptance letter from UPF, which will be sent by the OMA. To send you the

acceptance letter, it is essential that you have been correctly registered (as stated in section **a**).

The Foreign Affairs Ministry [website](#) will help you to find the nearest Spanish Embassy or consulate.

IMPORTANT! The visa must be a student visa (type D). Any other type of visa does not entitle you to the subsequent processing of your Foreign Identity Card (TIE).

What is the Schengen area?

The Schengen area is a zone where the free movement of people through its borders is guaranteed. Therefore, for non-Schengen citizens a student visa is required. The Schengen area is made up of the EU countries and Switzerland, Liechtenstein, Norway and Iceland; with exception of Bulgaria, Cyprus and Romania. If you are a citizen of a non-Schengen country, please be aware that the Schengen area does not include Great Britain or Ireland.

c. Don't forget to get a medical insurance

- **If you are a Spanish citizen or a foreign citizen with residence permit to live in Spanish territory**, you must have a health cover which is valid for Barcelona (Social Security, private health insurance, etc.).
- **If you are a citizen of a country member of the European Economic Area or Switzerland** and are entitled to coverage under the social security system of your country, then you are entitled to own a European Health Insurance Card, which can be obtained from the public health authorities of your home country. While the European Health Insurance Card (EHIC) gives EU citizens access to medically necessary, state-provided healthcare during a temporary stay in Spain, **the EHIC is NOT an alternative to travel insurance. It does cover NEITHER accidents NOR any private healthcare or costs such as a return flight to your home country or lost/stolen property. Moreover, the EHIC does NOT cover your costs if you are travelling for the express purpose of obtaining medical treatment.**
- **If you are a citizen of a country outside the European Economic Area or Switzerland**, then you must find out whether there is a mutual health provision agreement between the Social Security system of your country and Spain (that is the case of a number of Latin American countries). If there is such an agreement, you can obtain a document from the relevant authorities in your country entitling you to free medical coverage in Spain.
- **If you don't fall into any of the above categories** or cannot give proof of the document issued by the relevant national authority of your country, then prior to departure, you must take out a private medical insurance to cover the whole stay at UPF.

All international students are required to have full coverage of eventual risks during their stay in Spain and UPF will check that at least an accident and travel insurance has been contracted to complement the EHIC. Besides, we recommend considering other [benefit packages offered to UPF students](#) at a special price where there is a provision for medical care up to a limit of expenses.

d. Book your accommodation in Barcelona

If you are planning on looking for accommodation once you are in Barcelona, you should reserve a hotel or a hostel well in advance. Finding a room can prove very difficult if you have not made an advance booking.

You can check the available academic offer (including the language of instruction of every subject) [here](#) (Course offer). The academic offer for the 2023-24 academic year will be available in June.

The language of instruction of the courses can be Catalan, Spanish or English. Besides, it is possible that the same subject may have different groups and be given in different languages depending on the group. In any case, exams may be written in any of the three languages, acknowledged as working languages at UPF, regardless of the language used in class. For further information, check the [UPF Languages portal](#).

f. Enrol in the courses

Choose your subjects according to your academic interest as well as your language skills. Please be aware that it is not possible to change the language of the courses.

You will receive the self-enrolment instructions at the beginning of June (for the first term) or November (for the second and third terms), depending on the trimester in which you will start your stay at UPF. Please bear in mind the following enrolment deadlines:

FIRST TERM 5-11 July
SECOND AND THIRD TERM 16-21 November

When enrolling, you should bear in mind:

- **If you are an exchange student** (LLP/Erasmus, bilateral agreement), you may enrol in the courses run by the study corresponding to your exchange programme. Once the self-enrolment starts, by way of an exception, only if there are places still available, you can apply to enrol in courses offered by other studies.

- **If you are a visiting student**, you may enrol exclusively in courses offered by the school where you have been accepted.

Regarding the subjects you may be taking, if you are an exchange or visiting student, the recommended workload (as a guideline) is 20 ECTS per term. You should get in touch with the person responsible for this at your home university to find out which and how many subjects you should take while you are at UPF.

IMPORTANT: Enrolment is processed on a first-come, first-served basis.

That is, according to the order of arrival of enrolment applications.

Bear in mind that some subjects are highly demanded, therefore it is recommended to have alternative options. Especially at the Faculty of Economics and at the Faculty of Communication.

g. The European Higher Education Area at UPF

UPF has been one of the pioneer institutions in the implementation of the Bologna process in Spain. In the academic year 2009 – 2010, all UPF undergraduate studies started to gradually replace their “*licenciatures*” and “*diplomatures*” for the new “*graus*” or bachelor’s degrees. In the academic year 2018-2019, all studies have been fully adapted to the new structure of studies which consists of: degree, master and doctorate.

Undergraduate studies: aim for students to gain general training focused on preparing for professional life. Bachelor’s degrees consist of 240 ECTS credits, which are the equivalent of a minimum study period of four years. Exceptionally, in some cases they may consist of more credits, such as Medicine studies (360 ECTS credits).

Master’s degree studies: aim for students to acquire specialized or multidisciplinary advanced training. The master’s course plans have a load of between 60 and 120 credits and include both theoretical and practical training.

Doctoral studies: aim to provide students with advanced training in research techniques and include the writing and presentation of a doctoral thesis, consisting of an original research paper.

C. How will you be assessed?

The assessment system is set for each subject and it will be explained by the teacher during the first session. In general terms, assessment may be “continuous” or “unique”:

- **If the assessment is continuous** your results will be determined by considering the marks obtained during the term and the exam.
- **If the assessment is unique** your results will depend on the marks you get on a final exam only.

The examinations schedule is published approximately after a few weeks after the beginning of each term. You may be able to check it in the Campus Global (Intranet) in the “Academic Secretary” section or in the news feed of your faculty (in the main page of Campus Global).

The examination periods are as follows:

First term: 11 – 20 December

Second term: 13 – 22 March

Third term: 12 – 20 June

d. The grading system

Spanish universities use a quantitative and qualitative grading scale:

Matrícula d'honor (10)	“A with Honors”. This is the highest grade and it is awarded to a small number of students whose performance is considered exceptionally good (maximum 5% of enrolled students).
Excel·lent (9 -10)	“Very Good”. Awarded to students whose performance is considered very good.
Notable (7 - 8.9)	“Good”. Awarded to students whose performance is very good.
Aprovat (5 - 6.9)	“Pass”. This grade means that the student’s performance has been adequate.
Suspens (0 - 4.9)	“Fail”. This grade means that the student’s performance has not been good enough to pass the subject.

e. Register for the Catalan and Spanish language courses

The [Language Volunteering programme](#) is open to all UPF community members. It aims to help familiarize international students with Catalonia, its culture and its language, and to foster internationalization and language learning among Catalan students. For that, centers itself in two areas of activity:

- **Language tandem initiative:** among the students who apply in it, international students are paired up with local students, so that they can meet up and practice each other's languages.
- **Cultural outings and tours:** The programme organizes a range of cultural outings and tours in Barcelona and other parts of Catalonia throughout the year. All international students might receive emails announcing the events that might be organized during their stay.

For further information, check their [website](#) or write to voluntariat.linguistic@upf.edu.

g. ESN (Erasmus Student Network)

ESN Barcelona UPF is a nonprofit association formed by students from Universitat Pompeu Fabra.
