

Workshop - Valorizing your student engagement ?

The EUTOPIA Career Ambassador from CY Cergy Paris Université is inviting you to a second and final workshop about “**Valorizing your student engagement**” on **Monday 20th June at 5 p.m (CET) / 4 p.m (GMT)**. The workshop is about enhancing students’ engagement and acquiring competencies that can be valued on CVs.

In the current European context where the active participation of young people and students in society is highlighted through the EU's Youth Strategy for 2019-2027 and mechanisms such as the European Solidarity Corps, the question of recognising young people's engagement arises in particular to spotlight their transversal skills on the side to their academic knowledge.

What does student engagement mean? How can students put forth the skills acquired through engagement in extra-academic activities? (all dynamic participation of students in citizenship, solidarity, sports and cultural activities, in volunteering, political, civic, social, associative and extra-academic engagement, as well as their engagement in their universities and on their campuses.)

The guests will answer all these questions.

The workshop will be held by officers from the European project **STEP** (STudent Engagement Project) -

Alessandra PALAGIANO from Animafac, European project manager.

Clara GHIO from Animafac, Programme officer.

Do you want to participate ? If yes, please fill in the Google form

- <https://forms.gle/MYM7vDgWTt28jfNX9> -

you will receive the link to the Zoom conference.
