

D6.2 HDR Pipeline Impact Validation

Grant Agreement number	761544
Project acronym	HDR4EU
Project start date (duration)	1 st July 2017 (36 months)
Document due:	30/06/2019
Actual delivery date	13/09/2019
Leader	Smoke & Mirrors
Reply to	jethro@smoke-mirrors.com
Document status	Version for submission

Project funded by H2020 from the European Commission

Project ref. no.	761544
Project acronym	HDR4EU
Project full title	Enabling end-to-end HDR ecosystem
Document name	HDR4EU_D6.2_HDR_pipeline_validation_v3
Security (distribution level)	CO
Contractual date of delivery	30/06/2019
Actual date of delivery	13/09/2019
Deliverable name	D6.2 Effective HDR material processing and visualisation
Type	DEM
Status & version	Version for submission
Number of pages	23
WP / Task responsible	WP6T2 – HDR Pipeline Impact Validation
Other contributors	n/a
Author(s)	Mark Horrobin, Jethro Harris, Scott Winter
EC Project Officer	Mr. Ralph DUM, Ralph.DUM@ec.europa.eu
Abstract	This document outlines work undertaken to understand the impact on the post production workflows due to HDR delivery requirements and any improvements provided by HDR enhanced tools.
Keywords	HDR, grading, local tone mapping
Sent to peer reviewer	YES
Peer review completed	YES
Circulated to partners	NO
Read by partners	NO
Mgt. Board approval	NO

Introduction

This deliverable aims to highlight the impact of HDR deliverables on established post production workflows, traditionally designed for SDR. It uses material shot for the Enhanced Capture deliverable D2.2, which were specifically designed to demonstrate the extreme possibilities available in High Dynamic Range. In addition it looks to explore the benefits offered by the enhanced HDR tools offered by the other consortium partners..
