

Research Technician in the Sociodemography Research Group (DEMOSOC), Department of Political and Social Sciences, Pompeu Fabra University

Job description

The Research Technician will work on a project funded by the "la Caixa" Foundation through a Health Research Grant called Community-Driven Big Data Intelligence to Fight Mosquito-Borne Disease (*Big Mosquito Bytes*). The technician will be responsible for project management, coordination with public health stakeholders, and scientific knowledge transfer. This will include creation and dissemination of public health tools, dissemination of results to other researchers, stakeholders and civil society, and guidance on using open science and open innovation approaches throughout the project.

This is a fulltime position starting as soon as possible, ideally on February 2020. The position is in Research Support Personnel category 1 (*Tècnic sup. de suport a la recerca*). The annual base salary is 33,120.88 euros.

Qualifications

We are looking for a candidate with:

- a background in scientific outreach and knowledge transfer;
- experience with project management;
- experience with the citizen science in the context of disease-vector mosquitoes;
- strong GIS skills;
- master's degree in natural or environmental sciences;
- excellent academic record and CV;
- strong writing skills;
- fluency in written and spoken Catalan, Spanish, and English;
- a great curiosity and enthusiasm for scientific research.

Procedure

Send a cover letter and CV to Dr. John Palmer by email at john.palmer@upf.edu by 21 January 2020.
