Job title: Research support technician

Job description

The Studies Centre on Science, Communication and Society from Universitat Pompeu Fabra (SCS-UPF) is a special university centre that aims at bringing closer together society and science. This means that, on one hand, it will foster the scientific knowledge and culture and, on the other hand, it will work for the better alignment between R+D+i –in all its stages– and society’s needs and values.

SCS-UPF is offering a position to work on Responsible Research and Innovation (RRI) issues within the framework of two H2020 projects: GRECO and RiConfigure. The candidate will support the direction of SCS-UPF in coordinating the work packages assigned to the centre and related activities.

Project and Institution that finance the contract: The work is supported by two H2020 european projects: GRECO and RiConfigure

Official number reference
