Job title Lab manager opportunity in applied synthetic biology
Job description One lab manager opportunity available in the Translational Synthetic Biology group led by Marc Güell at Pompeu Fabra University. Synthetic Biology is an emerging field of research where scientists construct new biological systems and redesign existing ones. Our ability to modify genomes has profoundly affected how we perform scientific research, and future therapies. We are seeking motivated individuals to work on: Mammalian genome engineering. Find more information on the group at https://www.upf.edu/en/web/synbio
Project and Institution that finance the contract AEI-SAF2017-88784-R (FEDER/UE) MARC GÜELL con título "DESARROLLO DE NUEVAS TECNOLOGIAS PARA LA EDICION PRECISA Y EFICIENTE DEL GENOMA HUMANO"
Official number reference AEI-SAF2017-88784-R (FEDER/UE)
Information on the minimum requirements <ul style="list-style-type: none">• <i>Interest in applied genetic engineering and gene therapy</i>• <i>Curiosity and motivation to develop new biotechnologies</i>• <i>Good communication and organization skills</i>
Benefits of the opening 30h week part-time work contract.
Information on the application process Applicants please send CV and motivation letter to marc.guell@upf.edu Deadline to submit applications 29/10/18 Contact Marc Güell < marc.guell@upf.edu >
