

**Date of publication of the job offer: November 6<sup>th</sup>**

**Job title:** Postdoc- (PSR1- 1)

**Job description**

Computational analysis and development of algorithms to analyse massive data from Great Ape Populations.

**Project and Institution that finance the contract:**

**Official number reference: EC-H2020-2019-ERC CoG-ApeGenomeDiversity"**

**Information on the minimum requirements**

- Degree on Mathematics or Biology
- Experience in Computational genomics
- Experience in developing of algorithms
- Experience in analysing massive data from Great Ape Populations.
- Expertise in genomic analysis, NGS, POpngen and RNA

**Benefits of the opening**

A 5 month- part time contract with a gross salary of 2.040,05€.

**Information on the application process**

**Deadline to submit applications : November 20<sup>th</sup> , 2020**
