de Ciències Experimentals
i de la Salut

MINISTERIO
DE CIENCIA
E INNOVACIÓN

Date of publication of the job offer : 15/02/2022

Job title: Auxiliar de Suport a la Recerca (Grup 4)

Job description

This team member will perform RNA extraction from a large number of different mice tissue samples and will participate in the execution of various molecular assays including qPCR for the quantification of the expression of a minimum of 10 genes, among others.

Project and Institution that finance the contract

Ministerio de Ciencia, Innovación y Universidades (MCIU), Agencia Estatal de Investigación (AEI)

Official number reference/AE/Research Spanish Agency DOI

PID2019-110933GB-I00/AEI/10.13039/501100011033

Information on the minimum requirements

- Graduate in Biomedicine, Human Biology, Biotechnology, Genomics or in a related field.
- Master in Biomedical Research, Pharmaceutical Industry, Biotechnology, Genomics or in a related field will be a plus.
- Excellent attention to detail with an understanding of laboratory practices is required
- Learning agility and timely execution of tasks is required
- Candidate must be comfortable with troubleshooting RNA isolation and QC procedures
- Experience with molecular techniques, in general, and, especially, with qPCR and gene expression quantification

Benefits of the opening

The candidate will receive a three-month contract with a gross monthly salary of 1,200€ plus Social Security costs.
