

**March 15<sup>th</sup>, 2018**

**Postdoctoral position in the Cell Signaling Research Group**

The Cell Signaling Research Group led by Dr. Francesc Posas and Dr. Eulàlia de Nadal, at the Pompeu Fabra University (Barcelona, Spain) has a postdoctoral research position available for 7 months to work in the field of Cellular Biology.

We are looking for a highly motivated research scientist with consolidated experience on biochemistry and molecular and cell biology techniques to advance in the development of new therapeutic tools for cancer by studying a new mechanism of regulation for RB.

For more information please visit the web sites below:

<http://www.prbb.org> ; <http://www.upf.edu/cellsignaling>

**Project and Institution that finance the contract:** Department of Experimental and Health Sciencesit, Unidad de excelencia María de Maeztu, Pompeu Fabra University.

**Official number reference:** MINECO MDM-2014-0370

**Information on the minimum requirements**

We seek for highly motivated and independent candidates with an excellent track record and strong experimental experience in biochemistry, molecular and cellular biology techniques as well as a scientific background in cell cycle and DNA damage checkpoint pathways.

The candidate should:

- *be in possession of a PhD degree in Biology.*
- *have experience as a post-doc in Biochemistry and Molecular Biology in several laboratories.*
- *be self-sufficient to lead the project.*

**Benefits of the opening**

The candidate will receive a 7-9 months contract, with a gross salary/year of 30.000 €.

**Deadline to submit applications: March 29<sup>th</sup>, 2018**

**Contact:** Eulàlia de Nadal; [eulalia.nadal@upf.edu](mailto:eulalia.nadal@upf.edu)
