2012 IN REVIEW

This report summarizes the research activities, news and trends of the Department of Economics and Business at Universitat Pompeu Fabra (UPF) during the year 2012. Our department is a large organization with a research and teaching staff of 342 faculty, 100 of which are full-time professors. We also have a very committed administration staff, a group formed by 14 people.

During 2012 a number of the department faculty members received Research Fellowships and Research Professorships of various types, allowing them to reduce their teaching load and providing them with additional research funds.

In particular the department hosts two new ICREA Research Professors (Barbara Rossi, who joined the department in the beginning of the year, and Omiros Papaspiliopoulos), bringing us to a total of 13. Marie Curie Grants were obtained by Barbara Rossi (Career Integration Grant) and Alessandro Tarozzi (International Incoming Grant) and new department member Daniel Navarro Martínez was awarded a Beatriu de Pinós scholarship, which is granted by the Generalitat de Catalunya. Finally José García Montalvo has been awarded a Recercaixa research grant.

We are also pleased to mention that Filippo Ippolito and Ander Perez have been distinguished by the Best Paper Award in the 2012 Paul Van Arsdell Award in Corporate Finance; Humberto Llavador and Nagore Iriberry have been awarded the 2012 Jaume Vicens Vives Distinction for the quality of university teaching (SEP) and that Teresa Garcia-Milà has joined the Advisory Council for Economic Recovery and Growth (CAREC) of the Generalitat de Catalunya.

During 2012, a total of 36 full-time professors of the department held a Research Fellowship/Professorship. This represents around 35% of all the full-time professors. We can also report that 67% of our Assistant Professors received a Research Fellowship before the time of their tenure evaluation.

The 2012 job market was, as always, quite intense. We received 691 applications and flew out 29 candidates. We hired 6 junior faculty: Maria Galli (PhD INSEAD) who will join the department in January 2013, Matthew D. Hill (PhD UCLA) who will join the department in September 2013, Inga Hoever (PhD Erasmus University Rotterdam), Gianmarco León (PhD University of California, Berkeley), Daniel Navarro (PhD Universitat Jaume I) and Carlos Serrano (PhD University of Minnesota), and senior researcher

RESUM DEL 2012

Aquesta memòria recull les activitats de recerca, les notícies i les tendències del Departament d'Economia i Empresa de la Universitat Pompeu Fabra (UPF) durant l'any 2012. El nostre Departament és una organització extensa formada per 342 membres de personal docent i investigador, 100 dels quals són professors a temps complet. També disposem d'un diligent servei de personal d'administració i serveis, format per 14 persones.

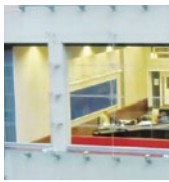

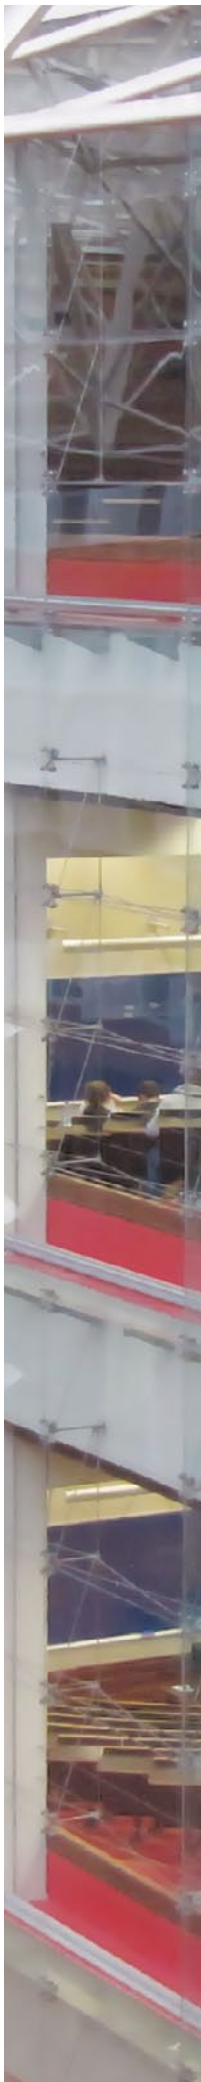

Durant el 2012, diferents membres del professorat del Departament han rebut càtedres i ajuts de recerca de diversa índole, la qual cosa els ha permès de reduir la docència i gaudir de fons addicionals per a la recerca.

Un fet a destacar és que el Departament acull dos nous investigadors ICREA (Barbara Rossi, que es va incorporar al Departament a principis d'any, i Omiros Papaspiliopoulos), i així ascendeix a un total de 13 investigadors ICREA. Dues noves beques Marie Curie han estat obtingudes per Barbara Rossi (Career Integration Grant) i Alessandro Tarozzi (International Incoming Grant), i al nou membre del Departament, Daniel Navarro Martínez, li han atorgat una beca Beatriu de Pinós, concedida per la Generalitat de Catalunya.

A més, ens plau informar que es va distingir Filippo Ippolito i a Ander Pérez amb el premi a la millor publicació Paul Van Arsdell en finances corporatives, edició 2012; Humberto Llavador i Nagore Iriberry van obtenir la distinció Jaume Vicens Vives del 2012 per la qualitat docent universitària (SEP) i Teresa Garcia-Milà va ser nomenada membre del Consell Assessor per a la Recuperació Econòmica i el Creixement (CAREC) de la Generalitat de Catalunya.

Durant el 2012, un total de 36 professors a temps complet del Departament han gaudit d'un ajut/càtedra de recerca. Això representa al voltant d'un 35% del conjunt de professors a temps complet. Una anàlisi mostra que el 67% dels nostres professors titulars interins obtenen fons competitiu de recerca abans de la seva avaluació per una posició permanent al Departament.

El Job Market del 2012 ha estat, com sempre, molt intens. Hem rebut 691 sol·licituds i hem entrevistat personalment 29 candidats que han presentat un seminari al Departament. Hem contractat 6 nous professors: Maria Galli (PhD INSEAD), que s'incorporarà al Departament el gener del 2013; Matthew D. Hill (PhD UCLA), que s'incorporarà al Departament el setembre del 2013; Inga Hoever (PhD Erasmus University Rotterdam), Gianmarco León (PhD University of

Eulàlia Nualart (PhD École Polytechnique Fédérale de Lausanne) joined us from University Paris 13.

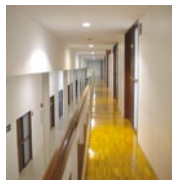

As usual, we had a busy schedule of seminars and conferences. The department organized 247 seminars during 2012, which amounts to more than 5 seminars per week.

We had 11 PhD students in the job market. Despite the hiring freeze in many institutions, candidates did quite well. They found jobs, amongst others, at Princeton University, Queen Mary, University of London and the Federal Reserve Board.

California, Berkeley), Daniel Navarro (PhD Universitat Jaume I), Carlos Serrano (PhD University of Minnesota), i la investigadora sènior Eulàlia Nualart (PhD École Polytechnique Fédérale de Lausanne) que es va incorporar al nostre equip des de la University Paris 13.

Com és habitual, hem tingut una agenda repleta de seminaris i conferències. El Departament ha organitzat 247 seminaris durant el 2012, la qual cosa significa uns 5 seminaris per setmana.

Finalment, hem aportat 11 estudiants de doctorat al Job Market i s'han col·locat en llocs de treball a centres de prestigi. Malgrat la congelació de la contractació a moltes institucions, els nostres novells doctors han aconseguit una excel·lent inserció laboral. Han estat contractats, entre d'altres, per Princeton University, Queen Mary, University of London i Federal Reserve Board.

FACULTY

The Department of Economics and Business aims to be and remain among the world's leading research centres in its fields of specialisation. This demands considerable effort in the process of recruiting its faculty and a strict policy of promotion.

The process of faculty recruiting starts every year with the announcement of the vacancies in different international media. As a result, the Department received 691 applications in 2012.

To evaluate the applications, committees by fields (macro, micro, finance and business) carry out an initial selection of candidates. The chosen candidates were interviewed either at the Allied Social Science Association (ASSA) Meeting in the United States or during the Spanish Symposium of Economics Analysis.

Among all interviewed candidates, 29 were invited to present seminars in the Department. Finally, after the candidates were interviewed on a one-to-one basis by a large number of faculty members, the hiring commission made an offer to the best candidates.

This demanding recruitment process results in a faculty drawn from the best European and American departments. All professors in tenure positions or in tenure-track positions have a PhD and 70% of them obtained it in non-Spanish universities. Our faculty includes around twenty different nationalities.

The Department also values the figure of adjunct professors, coming from the world of business or politics, as well as visiting faculty, that is, top international professors who spend several months with us, often on a yearly basis.

PROFESSORAT

El DEE de la UPF aspira a mantenir-se en primera línia mundial en la seva especialitat. Això requereix un esforç acurat de selecció i de contractació del professorat i una política molt exigent de promoció dels seus professors i investigadors.

El procés anual de contractació de professors comença amb la publicació a diversos mitjans de tot el món de les places que es volen cobrir. Arran d'aquesta publicació, el Departament va rebre 691 sol·licituds el 2012.

Per avaluar les sol·licituds es formen comissions, segons les especialitats (macro, micro, empresa i finances), que fan una primera selecció de candidats. Els escollits van ser entrevistats durant la conferència de l'Allied Social Sciences Association (ASSA), als Estats Units, o al Simposi Espanyol d'Anàlisi Econòmica.

De tots els candidats entrevistats, se'n van convidar 29 a presentar seminaris al Departament. Finalment, un cop escoltat el seminari i entrevistats els candidats per un nombre considerable de professors del Departament, les comissions de contractació van fer ofertes als candidats considerats millors.

Aquest procediment de selecció de professorat dona com a resultat que el cos facultatiu del DEE s'hagi format als departaments de les millors universitats d'Europa i dels Estats Units. Tots els professors amb places permanents o en vies de permanència són doctors. D'aquests, el 70% ho són per universitats no espanyoles. En el Departament conviuen unes vint nacionalitats diferents.

El Departament valora també la figura del professor associat, procedent de l'empresa o de la política, i la del professor convidat, és a dir, la de l'acadèmic o l'investigador de més alt nivell internacional que passa un any sencer amb nosaltres o que passa amb regularitat temporades al Departament (sovint, un trimestre a l'any, tots els anys).

CURRENT RESEARCH

The goal of the UPF Department of Economics and Business is to promote high quality research. It is expected that its faculty members publish in the leading international journals, and both hiring and promotion depend crucially on the publishing record. The long list of 2012 publications and forthcoming papers, listed in the corresponding section of this report, is the reflection of the importance that the Department places in high quality research.

The Barcelona Graduate School of Economics has recently been ranked by RePEc among the top 11 Economics Departments in the world, the top 3 in Europe and the top one in Spain.

No research oriented department can acquire scope and breadth without a potent graduate programme. Our Masters in Economics and in Finance are part of the Barcelona Graduate School of Economics.

Our Graduate Programme is part of the European Doctoral Programme, together with the London School of Economics, Bonn University, Delta (Paris), CORE (Louvain), the European University Institute (Florence) and Tel-Aviv University, whose goal is to promote exchanges of graduate students among these leading European universities and offering a joint doctoral degree in economics.

The Department includes four research centres: CREFC (Finance), CRES (Health Economics), LeeX (Experimental Economics) and BARG (Business Analytics Research Group), it has close connections with CREI (Macro and International Economics) and is part of the Barcelona GSE, a group that includes the leading academic economists of Catalonia.

RECERCA EN CURS

L'objectiu del DEE és promoure la recerca de major qualitat. S'espera dels professors del DEE que publiquin a les millors revistes internacionals, en tant que l'aplicació de la política de provisió de places en vies de permanència (tenure track) i la de consolidació del professorat depèn de manera crucial del seu historial de publicacions. La llarga llista del 2012 de publicacions i d'articles acceptats que apareixen a les seccions corresponents d'aquesta memòria, és el reflex de la importància que el Departament dóna a la investigació d'alt nivell.

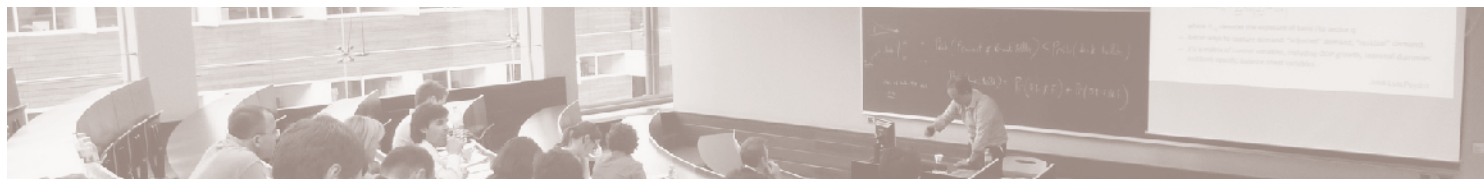

La Barcelona Graduate School of Economics ha estat recentment classificada per RePEc entre els primers 11 millors departaments d'economia al món, els 3 principals a Europa i el primer a Espanya.

A banda d'això, cap departament orientat a la recerca pot assolir la seva plenitud sense un programa de postgrau de qualitat. Els nostres màsters d'Economia i Finances són part de la Barcelona Graduate School of Economics.

El nostre programa de postgrau també forma part del Programa de Doctorat Europeu juntament amb la London School of Economics, la Universitat de Bonn, Delta (París), CORE (Lovaina), la Universitat Europea de Florència i la Universitat de Tel-Aviv, que té com a objectiu promoure intercanvis entre estudiants de postgrau de les principals universitats europees i oferir un doctorat en economia conjunt.

El Departament gestiona quatre organismes de recerca propis: CREFC (Finances), CRES (Economia de la Salut), LeeX (Economia Experimental) i BARG (Business Analytics Research Group), té estretes relacions amb el CREI (Macro i Economia Internacional) i forma part de la Barcelona GSE, grup que inclou els economistes més importants de Catalunya.

CREFC

CREFC Research Centre for Financial Economics and Accounting

CREFC was founded in 1995 under the auspices of a collaboration agreement between the Argentaria Foundation and Pompeu Fabra University. The Centre specializes in financial economics and combines the efforts of a group of UPF researchers with international co-operative projects.

CREFC Centre de Recerca en Economia Financera i Comptabilitat

El **CREFC** va iniciar les seves activitats l'any 1995 a l'empara del conveni de col·laboració entre la Fundació Argentaria i la Universitat Pompeu Fabra. El seu objectiu és la recerca en l'àrea de l'economia financera i coordina els esforços d'un equip de recerca de la Universitat Pompeu Fabra amb projecció internacional.

CRES

CRES Center for Research in Health and Economics

CRES is a specialized research center of the Pompeu Fabra University created in 1996. CRES has a strong multidisciplinary vocation, and as such its members are professors from both the Department of Economics and Business and the Department of Experimental and Health Science. The objective of CRES is to develop different lines of analysis of the health system, from the perspective of academic and scientific research, in order to contribute to changes in training and management of public services in areas related to Health Economics, Medicine and Health Administration.

CRES Centre de Recerca en Economia i Salut

El **CRES** és un centre especialitzat de recerca de la Universitat Pompeu Fabra des de 1996. El CRES disposa d'una forta vocació multidisciplinària i, per aquesta raó, està format per professors tant del Departament d'Economia i Empresa com del de Ciències Experimentals i de la Salut. El CRES té com a objectiu desenvolupar diferents línies d'anàlisi del sistema sanitari, des de l'òptica de la recerca acadèmica i científica, a fi de col·laborar d'aquesta manera als processos de canvi en la formació i gestió dels serveis en temes relacionats amb l'Economia de la Salut, del Medicament i de l'Administració Sanitària.

LeeX

LeeX Experimental Economics Laboratory

LeeX was inaugurated in 1992 by Vernon Smith, the future Nobel Prize winner. It was the first laboratory in Spain dedicated to the research of experimental economics and in a short space of time has become one of the leading labs in Europe. In addition to its role as the experimental platform for research at our Department, it has organised a number of conferences on experimental topics and holds annually a summer school for doctoral students, professors and researchers specialising in experimental macroeconomics.

LeeX Laboratori d'Economia Experimental

El 1992 el **LeeX** va ser inaugurat pel professor Vernon Smith, futur premi Nobel d'economia. Va ser el primer laboratori a Espanya dedicat a la recerca en economia experimental i es va convertir, en pocs anys, en un dels líders europeus. A part de ser la plataforma de la recerca experimental del Departament d'Economia i Empresa de la UPF, ha organitzat un bon nombre de congressos sobre temes experimentals i convoca anualment una escola d'estiu, la Summer School, per a estudiants de doctorat, professors i investigadors especialitzats en macroeconomia.

BARG

BARG Business Analytics Research Group

The **Business Analytics Research Group** at Pompeu Fabra University works on the skills, technologies, applications and practices for continuous iterative exploration and investigation of past business performance to gain insight and drive business planning.

Business analytics focuses on developing new insights and understanding of business performance based on data and quantitative methods. Business analytics makes extensive use of data, statistical and quantitative analysis, explanatory and predictive modeling, and fact-based management to drive decision making. Analytics may be used as input for human decisions or may drive fully automated decisions.

BARG Business Analytics Research Group

El **Business Analytics Research Group** (Grup de Recerca en Anàlisi Empresarial) de la Universitat Pompeu Fabra estudia les habilitats, les tecnologies, les aplicacions i les pràctiques en l'exploració i la investigació iterativa contínua del comportament empresarial en el passat per tal de millorar-ne la comprensió i generar una planificació empresarial.

L'anàlisi empresarial es centra en el desenvolupament de noves percepcions i en entendre el comportament empresarial basat en dades i mètodes quantitius. L'anàlisi fa un ampli ús de les dades, les estadístiques i l'anàlisi quantitativa, el model explicatiu i predictiu, i la gestió basada en fets que portin cap a una presa de decisions. L'anàlisi es pot utilitzar com una contribució en les decisions humanes o pot generar decisions completament automatitzades.

CREI

CREI Research Centre in International Economics

CREI is a research institute sponsored by the Catalan Government (Generalitat de Catalunya) and the Pompeu Fabra University. Its research activities focus on international economics and macroeconomics. The objective of CREI is to promote research subject to the highest standards of academic scholarship. Always in connection with that research dimension, they also want to be a source for education and dissemination of new ideas. The research activities are carried out by CREI's own group of researchers, as well as several research associates from the UPF community. All of them share a commitment to CREI's ultimate aim: to contribute to a better understanding of the economic forces that shape modern societies.

GRADUATE PROGRAMMES

Master Programme

The MSc (Master of Science) is a one-year programme. Those students awarded the MSc degree will have acquired an excellent grounding in their field and sufficient analytical skills to enter a PhD programme or go into a technically demanding job. The department offers MSc Degrees in Economics, in Finance and also in Management. The first two are managed by the Barcelona GSE and the latter by the Barcelona School of Management.

The MRes (Master of Research) is a one-year programme that prepares students for entry to the PhD programme. About 90% of the students enrolled in our Masters are foreigners.

Doctoral Programme

The purpose of the PhD degree programme is to prepare exceptionally talented students for careers in research and teaching at the world's leading academic institutions, research centres, consulting or financial firms, and international organisations. Students are encouraged to pursue their own research interests from the first year to the completion of their thesis.

The programme is designed to be completed in three years. It is conducted in English and requires full-time commitment. Whereas no coursework is required, students may take some courses if needed. The emphasis is on active research.

Interaction with other programmes

The GPEFM (Graduate Program of Economics, Finance and Management) is a member of the European Doctoral Programme (EDP). This network includes Bonn University (Germany), the London School of Economics (United Kingdom), the Centre for Operations Research and Econometrics, CORE (Research centre of the Université Catholique de Louvain, Belgium), Delta (Research Centre of L'École des Hautes Études en Sciences Sociales in Paris), the European University Institute (Florence), and the Pompeu Fabra University. Tel Aviv University is also an associate member. The students of this programme have to spend at least six months in another member institution.

ESTUDIS DE POSTGRAU

Programa de màster

El Master of Science (MSc) és un programa d'un any. Aquells estudiants que aconseguixin el títol de MSc adquiriran una excel·lent base en el seu camp i la competència analítica suficient per entrar en un programa de doctorat, o bé optar per una feina amb requeriments tècnics. El Departament ofereix el títol de MSc en Economia, en Finances i també en Empresa. Els dos primers els gestiona la Barcelona GSE, mentre que del darrer se n'encarrega la Barcelona School of Management.

El MRes (Master of Research) és un programa d'un any que prepara els estudiants per ingressar al programa de doctorat. Al voltant del 90% dels estudiants matriculats als nostres màsters són estrangers.

Programa de doctorat

L'objectiu del programa de doctorat és preparar els estudiants especialment talentosos per a fer carrera en el camp de la recerca i l'ensenyament a les principals institucions acadèmiques, centres de recerca, empreses consultores o financeres, i organitzacions internacionals. S'anima els estudiants a perseguir els seus propis interessos de recerca des del primer any per a la consecució de les seves tesis.

El programa està dissenyat per completar-se en tres anys. Es fa en anglès i requereix dedicació a temps complet. Tot i que no hi ha obligació de fer cap assignatura, els estudiants poden participar en algun cursset, si calgués. Es posa l'èmfasi en la investigació activa.

Interacció amb altres programes

El GPEFM (Graduate Program of Economics, Finance and Management) és membre de l'European Doctoral Programme (EDP). Aquesta xarxa inclou la Universitat de Bonn (Alemanya), la London School of Economics (Regne Unit), el Centre for Operations Research and Econometrics, CORE (Centre de Recerca de la Université Catholique de Louvain, Bèlgica), Delta (Centre de Recerca de L'École des Hautes Études en Sciences Sociales de Paris), l'European University Institute (Florència), i la Universitat Pompeu Fabra. La Universitat de Tel Aviv és també membre associat. Els estudiants d'aquest programa han de passar un mínim de sis mesos en una altra institució membre.

Professional Careers

As a general rule, the department does not hire its own PhD graduates. Graduates enjoy tenure track positions in the United States (Princeton, SUNY at Stony Brook, San Diego, Duke and Yale among others), Europe (Humboldt, Bocconi, Nova da Lisboa, Southampton, University College London, Lausanne, Mannheim, or the London School of Economics, etc.), Latin America (UNAM or ITAM in Mexico), Spain (Carlos III of Madrid, Autònoma of Barcelona, Navarra, etc.). Some students have continued their research with post-doctoral grants at prestigious universities such as Tilburg, Oxford or Harvard.

Others have decided to take jobs in central banks (Banca d'Italia, Bank of England, Boston FED, European Central Bank, etc.), international institutions like the International Monetary Fund, the World Bank or the InterAmerican Development Bank or to join economic consulting firms such as NERA.

Carrera professional

És norma del Departament no contractar els seus propis doctorats. La majoria d'ells gaudeixen d'una plaça de professor a prova als Estats Units (Stony Brook New York, San Diego, Duke, Yale, etc.), Europa (Humboldt, Bocconi, Nova da Lisboa, Southampton, University College London, Lausanne, Mannheim, o la London School of Economics, etc.), Amèrica Llatina (UNAM o ITAM a Mèxic), Espanya (Carlos III de Madrid, Autònoma de Barcelona, Navarra, etc.). Alguns estudiants han continuat la seva recerca amb beques post-doctorals a prestigioses universitats com Tilburg, Oxford o Harvard.

Altres han decidit treballar a bancs centrals (Banca d'Italia, Bank of England, Boston FED, European Central Bank, etc.), institucions internacionals com el Fons Monetari Internacional, el Banc Mundial o Banc Interamericà de Desenvolupament, o bé incorporar-se a empreses de consultoria econòmica com NERA.

A study of José García Montalvo and Marta Reynal-Querol is among the finalists for the Vanguardia Science Award

A study of José García Montalvo and Marta Reynal-Querol, professors of the Department of Economics and Business of UPF, is among the eight final works selected by the Scientific Advisory Committee of the Vanguardia Science Award, a joint initiative of Grupo Godó and Catalunya Caixa to support the research of excellence and to reward the best scientific research in the State during 2011. The study by García Montalvo and Reynal-Querol was published in *The Economic Journal* (August 2011). It shows the connection between the level of education of political leaders of a country and its economic development and in particular, that countries ruled by leaders with university formation thrive more than those governed by politicians without higher academic education.

In reaching this conclusion, the researchers analyzed data from all countries in the world and its leaders from 1875 until 2004. Their results applied to the Spanish State conclude that Spain has a weak political system that prevents the most qualified people from ruling the country.

FEBRER

Un estudi de José García Montalvo i Marta Reynal-Querol es troba entre els vuit finalistes del premi Vanguardia de la Ciència

Un estudi de José García Montalvo i Marta Reynal-Querol, professors del Departament d'Economia i Empresa de la UPF, es troba entre els vuit finalistes seleccionats pel Comitè Científic de Consulta pel premi Vanguardia de la Ciència, una iniciativa conjunta del Grup Godó i Catalunya Caixa per donar suport a la recerca d'excel·lència i que premia la millor recerca científica realitzada a l'Estat durant el 2011. L'estudi de García-Montalvo i Reynal-Querol va ser publicat per *The Economic Journal* (Agost 2011). Mostra les connexions entre el nivell d'educació dels líders polítics d'un país i el seu desenvolupament econòmic i, de manera específica, que els països governats per líders amb formació universitària prosperen més que els governats per polítics sense formació acadèmica superior.

Per arribar a aquesta conclusió, els investigadors van analitzar dades de tots els països del món i dels seus dirigents des del 1875 fins al 2004. Els seus resultats aplicats a l'Estat espanyol els porten a concloure que Espanya té un sistema polític deficient que impedeix que les persones més capacitades arribin a governar el país.

El Departament d'Economia i Empresa de la UPF ocupa el primer lloc a l'Estat espanyol en el camp de l'economia del Rànquing ISI

El Departament d'Economia i Empresa de la UPF ocupa el primer lloc en el camp de l'economia, empresa i negocis en la segona edició dels "Rànquings ISI de

the "ISI Rankings of the Spanish Universities according to Fields and Scientific Disciplines" for the period 2006-2010. The ranking's aim is to analyze the level of excellence in state and private Spanish universities in terms of scientific production.

Thus, according to the ISI Rankings, UPF leads the State in the field categorized as Economics, Business and Management, field represented by the Department of Economics and Business of the UPF. The ranking is organized into 12 fields and 19 disciplines, and across 6 bibliometric indicators of production and impact analyzes the works published in the indexed journals which make up the database produced by Thomson-ISI, the journals with greatest impact and visibility at international level.

The ISI Rankings are made by researchers of the research groups on Science Evaluation and Scientific Communication (EC3) and Soft Computing and Intelligent Information Systems.

les Universitats Espanyoles per Camps i Disciplines Científiques" corresponent al període 2006-2010. El rànquing té com a objectiu analitzar el nivell d'excel·lència dels centres universitaris públics i privats espanyols pel que fa a la producció científica.

Així, segons els Rànquings ISI, la UPF lidera a l'Estat espanyol el camp tipificat com d'economia, empresa i negocis, camp representat pel Departament d'Economia i Empresa.

El rànquing s'organitza en 12 camps i 19 disciplines, i a través de sis indicadors bibliomètrics de producció i impacte analitza els treballs que es publiquen a les revistes indexades que integren la base de dades produïda per Thomson-ISI, les revistes de major impacte i visibilitat a nivell internacional.

Els Rànquings ISI estan elaborats per investigadors dels grups de recerca en Avaluació de la Ciència i la Comunicació Científica (EC3) i Soft Computing and Intelligent Information Systems.
