2014 IN REVIEW

This report summarizes the research activities, news and trends of the Department of Economics and Business at Universitat Pompeu Fabra (UPF) during the year 2014. Our department is a large organization with a research and teaching staff of 328 faculty, 110 of which are full-time professors. We also have a very committed administration staff, a group formed by 13 people.

During 2014 a number of the department faculty members received Research Fellowships and Research Professorships of various types, allowing them to reduce their teaching load and providing them with additional research funds.

In particular, the department hosts a new ICREA Research Professor (Ruben Enikolopov who is also part of the research centre IPEG), bringing us to a total of 15. The department obtained five new ERC grants: Ruben Enikolopov in the Starting grant category; Barbara Rossi and Alberto Martin (CREI) in the Consolidator category, and Jan Eeckhout and Jordi Galí in the Advanced category. A Recercaixa was awarded to Andrea Caggese and Jose Garcia Montalvo obtained an ICREA Academia research grant. Davide Debortoli was awarded a Marie Curie Grant; Jordi Quoidbach a Beatriu de Pinós scholarship (Generalitat de Catalunya); Majid Al-Sadoon, Daniel Navarro and Larbi Alaoui a Juan de la Cierva grant; Rosa Ferrer and Giacomo Ponzetto a Ramon y Cajal grant; Andrea Polo an AXA scholarship and Eulalia Nulart a Serra Húnter permanent position (Generalitat de Catalunya).

During 2014, a total of 45 full-time professors of the department held an individual Research Fellowship/Professorship. This represents around 41% of all fulltime professors.

We hired 1 junior faculty, Geert Mesters (PhD University of Amsterdam) as well as two post docs, Ana Tur-Prats (PhD UAB) and Rei Sayag (PhD Erasmus University Rotterdam). We also had 2 visiting: Timo Sohl (PhD University of St. Gallen) and Luz Mary Pinzón (PhD Universidad de Salamanca).

The hiring at IPEG and CREI contributes to our research environment and faculty, as these professors are also members of our department. Vladimir Asriyan (PhD UC Berkeley) joined CREI.

The 2014 job market was, as always, quite intense. We received 760 applications and flew out 23 candidates. As usual, we had a busy schedule of seminars and conferences. The department organized 225 seminars during 2014, which amounts to around 5 seminars per week.

RESUM DEL 2014

Aquesta memòria recull les activitats de recerca, les notícies i les tendències del Departament d'Economia i Empresa de la Universitat Pompeu Fabra (UPF) durant l'any 2014. El nostre Departament és una organització extensa formada per 328 membres de personal docent i investigador, 110 dels quals són professors a temps complet. També disposem d'un diligent servei de personal d'administració i serveis, format per 13 personnes.

Durant el 2014, diferents membres del professorat del Departament han rebut càtedres i ajuts de recerca de diversa índole, la qual cosa els ha permès de reduir la docència i gaudir de fons addicionals per a la recerca.

Cal destacar que el Departament acull a un nou investigador ICREA (Ruben Enikolopov, que es va incorporar també al centre de recerca IPEG), així el total d'investigadors ascendeix a 15. El departament va aconseguir cinc noves subvencions de la ERC: Ruben Enikolopov en la categoria d'iniciació; Barbara Rossi i Alberto Martin (CREI) en la categoria de consolidats, i Jan Eeckhout i Jordi Galí en la categoria d'avancats. Es va otorgar una beca d'investigació Recercaixa a Andrea Caggese i José Garcia Montalvo va obtenir el premi ICREA Academia. A més, Davide Debortoli va obtenir una beca Marie Curie; Jordi Quoidbach la beca Beatriu de Pinós que condeix la Generalitat de Catalunya; Majid Al-Sadoon, Daniel Navarro i Larbi Alaoui van obtenir la beca Juan de la Cierva; Rosa Ferrer y Giacomo Ponzetto la beca Ramon y Cajal; Andrea Polo la beca AXA i Eulalia Nulart la posició permanent Serra Húnter concedida per la Generalitat de Catalunya.

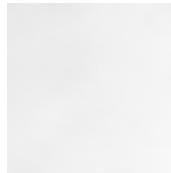

Al llarg del 2014, un total de 45 professors a temps complet del Departament han gaudit d'un ajut/càtedra de recerca. Això representa al voltant del 41% del conjunt de professors a temps complet.

El Departament va contractar un professor junior, Geert Mesters (PhD University of Amsterdam) així com dos investigadors post-doctorals, Ana Tur-Prats (PhD UAB) i Rei Sayag (PhD Erasmus University Rotterdam). També va acollir a dos professors visitants: Timo Sohl (PhD University of St. Gallen) i Luz Mary Pinzón (PhD Universidad de Salamanca).

Les contractacions a l'IPERG i al CREI també contribueixen a la creació investigadora del nostre professorat, ja que aquests professors també ho són del Departament.

Vladimir Asriyan (PhD UC Berkeley) es va incorporar al CREI.

El Job Market del 2014 ha estat, com sempre, molt intens. Hem rebut 760 sol·licituds i hem entrevistat perso-

We would also like to mention that we had 6 PhD students in the job market who found jobs, amongst others at the IMF and Bocconi.

nalment 23 candidats. Com és habitual, hem tingut una agenda replena de seminaris i conferències. El Departament ha organitzat 225 seminaris durant el 2014, la qual cosa significa uns 5 seminaris per setmana.

També voldríem esmentar que hem aportat 6 estudiants de doctorat al Job Market i van trobar treball, entre d'altres llocs, l'IMF i la Universitat Bocconi.

FACULTY

The Department of Economics and Business aims to be and remain among the world's leading research centres in its fields of specialisation. This demands considerable effort in the process of recruiting its faculty and a strict policy of promotion.

The process of faculty recruiting starts every year with the announcement of the vacancies in different international media. As a result, the Department received 760 applications in 2014.

To evaluate the applications, committees by fields (macro, micro, finance and business) carry out an initial selection of candidates. The chosen candidates were interviewed either at the Allied Social Science Association (ASSA) Meeting in the United States or during the Spanish Symposium of Economics Analysis.

Among all interviewed candidates, 23 were invited to present seminars in the Department. Finally, after the candidates were interviewed on a one-to-one basis by a large number of faculty members, the hiring commission made an offer to the best candidates.

This demanding recruitment process results in a faculty drawn from the best European and American departments. All professors in tenure positions or in tenure-track positions have a PhD and 75% of them obtained it in non-Spanish universities. Our faculty includes more than twenty different nationalities.

The Department also values the figure of adjunct professors, coming from the world of business or politics, as well as visiting faculty, that is, top international professors who spend several months with us, often on a yearly basis.

PROFESSORAT

El DEE de la UPF aspira a mantenir-se en primera línia mundial en la seva especialitat. Això requereix un esforç acurat de selecció i de contractació del professorat i una política molt exigent de promoció dels seus professors i investigadors.

El procés anual de contractació de professors comença amb la publicació a diversos mitjans de tot el món de les places que es volen cobrir. Arran d'aquesta publicació, el Departament va rebre 760 sol·licituds el 2014.

Per avaluar les sol·licituds es formen comissions segons les especialitats (macro, micro, empresa i finances), que fan una primera selecció de candidats. Els escollits van ser entrevistats durant la conferència de l'Allied Social Sciences Association (ASSA), als Estats Units, o al Simposi Espanyol d'Anàlisi Econòmica. De tots els candidats entrevistats, se'n van convidar 23 a presentar seminaris al Departament. Finalment, un cop entrevistats els candidats per un nombre considerable de professors del Departament, les comissions de contractació van fer ofertes als candidats considerats millors.

Aquest procediment de selecció de professorat tan exigent dóna com a resultat que el cos facultatiu del DEE s'hagi format als departaments de les millors universitats europees i nord-americanes. Tots els professors amb places permanents o en vies de permanència són doctors, dels quals un 75% ho són per universitats no espanyoles. En el Departament conviven més de vint nacionalitats diferents. El Departament valora també la figura del professor associat, procedent de l'empresa o de la política, i la del professor convidat, és a dir, la de l'acadèmic o l'investigador de més alt nivell internacional que passa uns mesos amb nosaltres i, sovint, un any sencer.

CURRENT RESEARCH

The goal of the UPF Department of Economics and Business is to promote high quality research. It is expected that its faculty members publish in the leading international journals, and both hiring and promotion depend crucially on the publishing record. The long list of 2014 publications and forthcoming papers, listed in the corresponding section of this report, is the reflection of the importance that the Department places in high quality research.

The Barcelona Graduate School of Economics has recently been ranked by RePEc among the top 14 Economics Departments in the world, the top 5 in Europe and the top one in Spain.

No research oriented department can acquire scope and breadth without a potent graduate programme.

Our Masters in Economics and in Finance are part of the Barcelona Graduate School of Economics.

Our Graduate Programme is a partner in the European Doctoral Program in Quantitative Economics which aims to promote the exchange of doctoral students between the following universities: the London School of Economics, the European University Institute (Florence), the Université Catholique de Louvain, the Paris School of Economics and the Universität Bonn.

The Department includes four research centres: LeeX (Experimental Economics), CREFC (Finance), CRES (Health Economics) and BARG (Business Analytics Research Group), it has close connections with CREI (Macro and International Economics) and is part of the Barcelona GSE, as well as of IPEG (Institute of Political Economy and Governance) which was created in 2013.

RECERCA EN CURS

L'objectiu del DEE és promoure la recerca de més alta qualitat. S'espera dels professors del DEE que publiquin a les millors revistes internacionals, en tant que l'aplicació de la política de provisió de places en vies de permanència (tenure track) i la de consolidació del professorat depèn de manera crucial del seu historial de publicacions. La llarga llista del 2014 de publicacions i d'articles acceptats que apareixen a les seccions corresponents d'aquesta memòria és el reflex de la importància que el Departament dóna a la investigació d'alt nivell.

La Barcelona Graduate School of Economics ha estat recentment classificada pel RePEc entre els primers 14 millors departaments d'economia al món, els 5 principals dels quals són a Europa i aquest el primer d'Espanya.

A banda d'això, cap departament orientat a la recerca pot assolir la seva plenitud sense un programa de postgrau de qualitat. Els nostres màsters d'Economia i Finances són part de la Barcelona Graduate School of Economics.

El nostre Programa de Postgrau és un soci en el Programa de Doctorat Europeu en Economia Quantitativa que té com a objectiu promoure l'intercanvi d'estudiants de doctorat entre les universitats següents: la London School of Economics, l'Institut Universitari Europeu de Florència, la Universitat Catòlica de Lovaina, la Paris School of Economics and la Universitat de Bonn.

El Departament gestiona quatre organismes de recerca propis: LeeX (Economia Experimental), CREFC (Finances), CRES (Economia de la Salut) i BARG (Business Analytics Research Group), té estretes relacions amb el CREI (Macro i Economia Internacional) i forma part de la Barcelona GSE, així com de l'IPEG (Institute for Political Economy and Governance) que es va crear el 2013.

RESEARCH CENTRES WITH DEE PARTICIPATION ORGANISMES DE RECERCA AMB LA PARTICIPACIÓ DEL DEE

LeeX Experimental Economics Laboratory

LeeX was inaugurated in 1992 by Vernon Smith, the future Nobel Prize winner. It was the first laboratory in Spain dedicated to the research of experimental economics and in a short space of time has become one of the leading labs in Europe. In addition to its role as the experimental platform for research at our Department, it has organised a number of conferences on experimental topics and holds annually a summer school for doctoral students, professors and researchers specialising in experimental macroeconomics.

LeeX Laboratori d'Economia Experimental

El 1992 el **LeeX** va ser inaugurat pel professor Vernon Smith, futur premi Nobel d'economia. Va ser el primer laboratori a Espanya dedicat a la recerca en economia experimental i es va convertir, en pocs anys, en un dels líders europeus. A part de ser la plataforma de la recerca experimental del Departament d'Economia i Empresa de la UPF, ha organitzat un bon nombre de congressos sobre temes experimentals i convoca anualment una escola d'estiu, la Summer School, per a estudiants de doctorat, professors i investigadors especialitzats en macroeconomia.

CRES Center for Research in Health and Economics

CRES is a specialized research center of the Pompeu Fabra University created in 1996. CRES has a strong multidisciplinary vocation, and as such its members are professors from both the Department of Economics and Business and the Department of Experimental and Health Science. The objective of CRES is to develop different lines of analysis of the health system, from the perspective of academic and scientific research, in order to contribute to changes in training and management of public services in areas related to Health Economics, Medicine and Health Administration.

CRES Centre de Recerca en Economia i Salut

El **CRES** és un centre especialitzat de recerca de la Universitat Pompeu Fabra des de 1996. El CRES disposa d'una forta vocació multidisciplinari i, per aquesta raó, està format per professors tant del Departament d'Economia i Empresa com del de Ciències Experimentals i de la Salut. El CRES té com a objectiu desenvolupar diferents línies d'anàlisi del sistema sanitari, des de l'òptica de la recerca acadèmica i científica, a fi de col·laborar d'aquesta manera als processos de canvi en la formació i gestió dels serveis en temes relacionats amb l'Economia de la Salut, del Medicament i de l'Administració Sanitària.

CREI Research Centre in International Economics

CREI is a research institute sponsored by the Catalan Government (Generalitat de Catalunya) and the Pompeu Fabra University. Its research activities, focus on international economics and macroeconomics. The objective of CREI is to promote research subject to the highest standards of academic scholarship. The research activities are carried out by CREI's own group of researchers, as well as several research associates from the UPF community. All of them share a commitment to CREI's ultimate aim: to contribute to a better understanding of the economic forces that shape modern societies.

CREI Centre de Recerca en Economia Internacional

El **CREI** és un institut de recerca patrocinat per la Generalitat de Catalunya i la Universitat Pompeu Fabra. Les seves activitats se centren en l'economia internacional i la macroeconomia. L'objectiu del CREI és promoure la recerca d'acord amb els estàndards acadèmics més alts. Les activitats de recerca són portades a terme pels investigadors propis del CREI i pels investigadors associats del DEE de la UPF. La missió final del CREI és contribuir a una millor comprensió del funcionament de l'economia en la societat contemporània.

• Working papers Documents de treball

The Department publishes a Working Paper Series whose main objective is to report on research developed by its professors, previous to the publication of the research in well-known professional journals.
The Working Paper Series can be found through the following link:

><http://www.econ.upf.edu/en/research/papers.php>

El Departament disposa d'una Working Paper Series, l'objectiu principal de la qual és divulgar, de manera prèvia a la publicació en revistes professionals reconegudes, els resultats obtinguts en la recerca que es fa al Departament, per així sotmetre'ls a la crítica professional.

Els Working Papers es troben al següent enllaç:

GRADUATE PROGRAMMES

Master Programmes

These are one-year programmes. Those students awarded the Master degree will have acquired an excellent grounding in their field and sufficient analytical skills to enter a PhD programme or go into a technically demanding job. The department offers Master Degrees in Economics, in Finance and also in Management. The first two are managed by the Barcelona GSE and the latter by the Barcelona School of Management.

About 90% of the students enrolled in our Masters are foreigners.

Doctoral Track

The MRes (Master of Research) is a one-year programme that prepares students for entry to the PhD programme. The purpose of the PhD degree programme is to prepare exceptionally talented students for careers in research and teaching at the world's leading academic institutions, research centres, consulting or financial firms, and international organisations. Students are encouraged to pursue their own research interests from the first year to the completion of their thesis.

The programme is designed to be completed in three years. It is conducted in English and requires full time commitment. Whereas no coursework is required, students may take some courses if needed. The emphasis is on active research.

Interaction with other programmes

The GPEFM (Graduate Program of Economics, Finance and Management) is a member of the European Doctoral Programme (EDP). This network includes Bonn University (Germany), the London School of Economics (United Kingdom), the Centre for Operations Research and Econometrics, CORE (Research centre of the Université Catholique de Louvain, Belgium), Delta (Research Centre of L'École des Hautes Études en Sciences Sociales in Paris), the European University Institute (Florence), and the Pompeu Fabra University. Tel Aviv University is also an associate member. The students of this programme have to spend one academic year in another member institution.

The Spanish Ministry of Education as well as the European Union have recognized the GPEFM and the EDP as institutions of excellence.

ESTUDIS DE POSTGRAU

Programa de màster

Es tracta de programes d'un any de durada. Els estudiants que aconsegueixin un d'aquests títols adquiriran una excel·lent base en el seu camp i la competència analítica suficient per entrar en un programa de doctorat, o bé optar per una feina amb requeriments tècnics. El Departament ofereix els títols de màster en Economia, en Finances i també en Empresa. Els dos primers els gestiona la Barcelona GSE, mentre que el darrer el porta la Barcelona School of Management.

Al voltant del 90% dels estudiants matriculats als nostres màsters són estrangers.

Programa de doctorat

El MRes (Master of Research) és un programa d'un any de durada que prepara els estudiants per ingressar al programa de doctorat. L'objectiu del programa és preparar els estudiants especialment talentosos per fer carrera en el camp de la recerca i l'ensenyament a les principals institucions acadèmiques, centres de recerca, empreses consultores o financeres, i organitzacions internacionals. S'anima els estudiants a perseguir els seus propis interessos de recerca des del primer any per a la consecució de les seves tesis.

El programa està dissenyat per completar-se en tres anys. Es fa en anglès i requereix dedicació a temps complet. Tot i que no hi ha obligació de fer cap assignatura, els estudiants poden participar en algun curset, si calgués. Es posa l'èmfasi en la investigació activa.

Interacció amb altres programes

El GPEFM (Graduate Program of Economics, Finance and Management) és membre de l'European Doctoral Programme (EDP). Aquesta xarxa inclou la Universitat de Bonn (Alemanya), la London School of Economics (Regne Unit), el Centre for Operations Research and Econometrics, CORE (Centre de Recerca de la Université Catholique de Louvain, Bèlgica), Delta (Centre de Recerca de L'École des Hautes Études en Sciences Sociales de Paris), l'European University Institute (Florència), i la Universitat Pompeu Fabra. La Universitat de Tel Aviv és també membre associat. Els estudiants d'aquest programa han de passar un any acadèmic en una altra institució membre.

El Ministeri d'Educació espanyol, així com la

Professional Careers

As a general rule, the department does not hire its own PhD graduates. Graduates enjoy tenure track positions in the United States (Princeton, Chicago, Stanford, San Diego, Duke and Yale among others), Europe (Humboldt, Bocconi, Nova da Lisboa, Southampton, University College London, Lausanne, Mannheim, or the London School of Economics, etc.), Latin America (UNAM or ITAM in Mexico), Spain (Carlos III of Madrid, Autònoma of Barcelona, Navarra, etc.). Some students have continued their research with post-doctoral grants at prestigious universities such as Tilburg, Oxford or Harvard.

Others have decided to take jobs in central banks (Banca d'Italia, Bank of England, Boston FED, European Central Bank, etc.), international institutions like the International Monetary Fund, the World Bank or the InterAmerican Development Bank or to join economic consulting firms such as NERA.

Unió Europea han reconegut el GPEFM i l'EDP com institucions amb excel·lència.

Carrera professional

És norma del Departament no contractar els seus propis doctorands o doctors. La majoria d'ells gaudeixen d'una plaça de professor en vies de permanència als Estats Units (Princeton, Chicago, Stanford, San Diego, Duke, Yale, etc.), Europa (Humboldt, Bocconi, Nova da Lisboa, Southampton, University College London, Lausanne, Mannheim, o la London School of Economics, etc.), Amèrica Llatina (UNAM o ITAM a Mèxic), Espanya (Carlos III de Madrid, Autònoma de Barcelona, Navarra, etc.). Alguns estudiants han continuat la seva recerca amb beques post-doctorals a prestigioses universitats com Tilburg, Oxford o Harvard.

Altres han decidit treballar a bancs centrals (Banca d'Italia, Bank of England, Boston FED, European Central Bank, etc.), institucions internacionals com el Fons Monetari Internacional, el Banc Mundial o el Banc Interamericà de Desenvolupament, o bé incorporar-se a empreses de consultoria econòmica com NERA.
