1.1 Register as an Education Abroad Program student

To register as a study abroad student at UPF, you will need to submit the on-line application (you will get specific instructions from our office).

In order to complete your online application, you will be asked to upload the following admissions documents:

✓ A photocopy of your identity card or passport.
✓ A photocopy of your medical insurance valid during your stay in Barcelona.
✓ A passport-size picture.
✓ A photocopy of your transcript of records stating that:

- You are a Junior standing student at the time of the application.
- You have a minimum of a cumulative 3.0 GPA (of a 4.0 scale) or equivalent *exceptions: If you apply for a Legal Studies Program or Experiential Learning Program, a minimum of 3.3 GPA is required.

- Applicants who wish to take content courses instructed in Spanish should have completed at least four semesters of college-level Spanish for following some of the courses. Please check our courses syllabi in order to get more details about the Spanish Language requirements for each course. (*if this does not show in your transcript, please provide us with a certificate of the language school where you followed the language course).

* If you are a Heritage Speaker of the language, you do not need to submit a proof of language level, but you should inform us of this circumstance.

*It is important that you check all our program language requirements because students are strongly advised to have completed at least four semesters of college-level Spanish for
some of our courses. Please check our course syllabi in order to get more details about the Spanish Language requirements for each course.

Once you have completed your registration, UPF will send you more information so you can prepare your stay in Barcelona, including the welcome program and information about registration to the courses.

1.2 Do you need a visa?

If you are a citizen in any of the EU countries, the European Economic Area (EEA) or Switzerland, you do not need to follow any administrative procedure before travelling to Barcelona. If your stay is longer than three months, you will need to register at the “Registro de Ciudadanos de la Unión” when you arrive in Barcelona. For further information, please go to: [http://www.upf.edu/barcelona/en/requisits/index.html#EU](http://www.upf.edu/barcelona/en/requisits/index.html#EU)

If you don’t fall into this category, and your stay is longer than 90 days, you must obtain a students' visa from the nearest Spanish embassy or consulate to where you live, before you leave your country. To apply for a visa, you will need an acceptance letter from UPF, which our Study Abroad Office will send to your home institution. (If needed, you can e-mail us at studyabroad@upf.edu). In order to send you the acceptance letter, it is essential that you have been correctly registered, as we have stated in section a) above.
The Foreign Affairs Ministry website will help you in order to find the nearest Spanish embassy or consulate.

**Important:** A tourist visa is not enough to allow you to study in Spain.

- It is very important that the visa is a **student visa (type D)**. Any other type of visa doesn't entitle you to the subsequent processing of your **Foreign Identity Card (TIE)**.

- If your authorised stay is longer than six months, you must apply for your **TIE**, within one month of arrival in Schengen area or Spain. Please check this link for further information:

  https://www.upf.edu/barcelona/en/requisits/index.html#nonUE

- Please bear in mind that if you receive a 180-day student visa with only one Schengen Area Entry, you will not be allowed to extend your stay for a period longer than 180 days, and you will not be able to leave Spain and enter again.

---

**What is the Schengen area?**

The Schengen area is a zone where the free movement of people through its borders is guaranteed. If you are a citizen of a non-Schengen country, you will need to apply for a student visa.

The Schengen area is made up of the EU countries and Switzerland, except for Bulgaria, Cyprus and Romania. If you are a citizen of a non-Schengen country, please be aware that the Schengen area does not include Great Britain or Ireland (source: European Commission).

---

**1.3 Don’t forget to take out medical insurance**

All exchange students must have a health cover:

- **If you are a Spanish citizen**, you must have a health cover which is valid for Barcelona (Social Security, private health insurance, etc.).

- **If you are a citizen of a member country of the European Economic Area or Switzerland** and are entitled to coverage under the social security system of your country, then you must be a European health Insurance Card holder, which can be
obtained from the public health authorities of your home country. While the European Health Insurance Card gives EU citizens access to medically necessary, state-provided healthcare during a temporary stay in Spain, the EHIC is NOT an alternative to travel insurance. It does cover NEITHER accidents NOR any private healthcare or costs such as a return flight to your home country or lost/stolen property. Moreover, the EHIC does NOT cover your costs if you are travelling for the express purpose of obtaining medical treatment.

All international students, including Erasmus, are required to have full coverage of eventual risks during their stay in Spain and UPF will check that at least an accident and travel insurance (Univer Incoming/Erasmus Basic) has been contracted to complement the EHIC. These are the minimum requisites. Besides, we recommend considering other benefit packages offered to UPF students at a special price where there is a provision for medical care up to a limit of expenses.

- **If you are a citizen of a country outside the European Economic Area or Switzerland**, then you must find out whether there is a mutual health provision agreement between the Social Security system of your country and Spain (this is the case of a number of Latin American countries). If there is such an agreement, you can obtain a document from the relevant authorities in your country entitling you to free medical coverage in Spain.

- **If you do not fall into any of the above categories** or cannot give proof of the document issued by the relevant national authority of your country, then prior to departure, you must take out a private medical insurance to cover the whole stay at UPF.

The following company offers a benefit package to UPF students at a special price:

2. THE UPF EDUCATION ABROAD PROGRAM

2.1 Program Presentation

Universitat Pompeu Fabra (UPF) is a young, modern and prestigious public university that hosts a high quality Education Abroad Program fully integrated in the university academic life.

Semester and all year students are able to enroll in Spanish Language courses, regular courses at all UPF Schools and Hispanic, European Studies Program (HESP) courses or academic internships. The HESP, core of UPF Study Abroad, is specially designed to meet the needs of international students interested in learning about Catalonia, Spain, Europe and the issues of a Global world from the Liberal Arts and with an interdisciplinary perspective.

All courses are instructed by engaging UPF faculty and maintain the same quality standards that all UPF academic offerings. Topic-based programs contribute to enrich our offerings for students who are interested in focusing on a specific discipline, such as the Legal Studies Abroad Program or the International Business Program.
Additionally, our international UPF Barcelona Summer School provides a variety of courses in the disciplines of Humanities, Political Sciences and Communication combined with hands-on seminars and on-site learning activities.

Please, note that the different programs under the Education Abroad umbrella may have differences in calendars and academic policies. Use the following sections to check the different course options, calendars and timetables for each of the divisions to work a suitable schedule of classes.

### 2.2 Academic Policies

#### Attendance Policy

Attendance at lectures is compulsory and shall be monitored daily by teaching staff. Students are deemed responsible for managing their absences, and no distinction shall be made between justified and unjustified absences. Emergency situations (hospitalization, family crises, etc.) shall be studied on a case-by-case basis by the program's academic director, once appropriate, valid documentation has been provided to that end.

Please see course syllabi for details of how absences affect final grades.

#### Academic honesty and student conduct

Students who enroll on and participate in the program are required to attend and actively contribute to lectures, to study and to complete the corresponding workload (exams and assignments).

Students are expected to attend all sessions well prepared and in good condition to learn and participate, and to respect the general principles of academic honesty. Poor conduct (plagiarism, apathy, disrespectful behavior towards lecturers or classmates, etc.) shall result in a warning letter being sent to the corresponding student’s home institution or, in the case of UPF students, to their dean. Repeated poor conduct may
result in expulsion from the program.

**Specific policies for fieldwork activities**

All students enrolled on the program shall participate in academic visits, tours and other course-related activities. The said activities are closely connected to the academic program and have been designed with input from each lecturer in order to incorporate them into the course assessment process. Students must regard such activities as off-campus lectures and behave accordingly, including studying the necessary reading material and completing assignments as scheduled by lecturers. The same academic conduct policies apply to off-campus activities as to classroom sessions and activities on other UPF premises.

### 2.3 Academic Advising

Each of the divisions in the Education Abroad Program has an Academic Coordinator to contact in case of need of advice on courses (subjects to do on with a particular topic, required levels of subjects, etc.), concerns about professors, language of instruction, etc.

Remember that, if you have any academic concern, questions regarding course contents, etc. you can contact the academic coordinator for each program:

3.4 The Add-drop

Each term, Study Abroad students are given the opportunity to change their schedules, once on-site and after few class sessions, and always depending on if the chosen courses have free spots available.

Due to limitation of spots per class, students will be allowed to register up to 5 courses (30 ECTS credits) per term. The EAP administrators reserve the right to remove any course from your UPF registration if you overregister, in order to distribute the opportunities equally among the students.

All students should have the same number of courses before and after the add/drop, i.e. each course drop shall include an add or vice-versa. Drop only of courses will not be allowed. If your home university asks you to register for more than 30 ECTS or to
drop only a course from your original registration, please contact us at studyabroad@upf.edu

After the Add-drop session, enrolment will be deemed finalized and no further changes will be admitted or processed. There is no cancellation policy, and no refunds will be provided for any reason at this stage.

The Education Abroad Program staff will provide you with an Add-Drop handbook describing the process. Please visit our calendar site in order to know the specific add drop dates for each term.

### 3.5 Examinations

**HESP and Spanish Language courses:**

HESP final exams are usually scheduled for the antepenultimate or penultimate session of the term. Your instructors will inform about the specific dates well in advance and the date for all exams and evaluation exercises (tests, take-home or mid-term exams, presentations, final exam…) are published in the course syllabus.

*Plan your traveling around classes! By no means will a HESP exam date be changed due to student’s independent traveling. You will find the HESP exam dates in the course syllabi or you will be informed by professors the first day of class.*

**ESCI courses:**

Registration in a course entitles any student to sit the examination twice: at the end of the trimester and in September. **Only students who fail the first exam will have the possibility to retake it in September.**

The regular examinations calendar is published in the Visiting Students folder in the aul@ESCI-Intranet about a month before the exams period starts.

International students will have to take the exams at the same dates and under the same conditions as regular and exchange students. All students have the responsibility to find out about examination dates, rooms as well as the assessment method used in each subject. Final grades will be posted through aul@ESCI and Intranet. Student’s identification for these final grades shall be done through the
NIA (personal identification number). The exams reviews dates and times, as well as the deadline for requesting them, will be published also in the Visiting Students folder. Students that won’t be in ESCI in the posted dates can ask for a written report of the obtained grade. This report will be sent to the student’s ESCI email account.

**UPF regular courses:**

Registration for UPF course entitles you to sit the examination twice: at the end of the term and in the retake exam periods (established by each Faculty/School). Please note that only students who fail the first exam will be able to participate in the retake exam periods. The exam dates for each course are published about one month before the exam period starts. You can check them at: Campus Global (Intranet) - “Academic Secretariat” section, or on the notice boards in each Faculty.

3.6 The grading system

Spanish universities use a quantitative and qualitative grading scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Matrícula d'honor (10)</td>
<td>With Honours</td>
</tr>
<tr>
<td>Excel·lent (9-10)</td>
<td>Very Good</td>
</tr>
<tr>
<td>Notable (7-8.9)</td>
<td>Good</td>
</tr>
<tr>
<td>Aprovat (5-6.9)</td>
<td>Pass</td>
</tr>
<tr>
<td>Suspens (0-4.9)</td>
<td>Fail</td>
</tr>
</tbody>
</table>

Students receiving this grade do not pass the subject, and they can retake it in September.
3.7 The European Higher Education Area at UPF

UPF has been one of the pioneer institutions in the implementation of the Bologna process in Spain. In the academic year 2009-2010, all UPF undergraduate studies started to gradually replace their “licenciatures” and “diplomatures” for the new “graus” or bachelor’s degrees. By the academic year 2013-2014, all studies were fully adapted to the new structure: degree, master and doctorate.

Undergraduate studies
Undergraduate studies aim for students to gain general training focusing on preparing for professional life. Bachelor’s degrees consist of 240 ECTS credits, which are the equivalent of a minimum study period of four years. Exceptionally, they may consist of more credits, this being the case at UPF of Medicine studies (360 ECTS credits).

Master’s degree studies
Master’s degree studies aim for students to acquire specialized or multidisciplinary advanced training. The master’s course plans have a load of between 60 and 120 credits and include both theoretical and practical training.

Doctoral studies
Doctoral studies aim to provide students with advanced training in research techniques and include the writing and presentation of a doctoral thesis, consisting of an original research paper. For further information:

Take part in the Language Volunteering Program (VL)

The Language Volunteering program is open to all UPF community members. Its aims are to help familiarize international students with Catalonia, its culture and its language, and to foster internationalization and language learning among Catalan students. To achieve this dual goal, the program organizes a range of cultural outings and tours in Barcelona and other parts of Catalonia throughout the year, as well as a language tandem initiative so that international and Catalan students can learn and practice each other’s languages.

For further information, visit the webpage www.upf.edu/vl or e-mail at voluntariat.linguistic@upf.edu.

3.9 What else does UPF have to offer?

ESN (Erasmus Student Network)

ESN BCN is a non lucrative, apolitical, non-denominational, open and tolerant students association, based on the principles of ESN. They organize social and cultural integration activities and also have a Mentor Program, in which they assign a local student to one or more exchange students who have asked for participating in the program, with the aim of making exchange students’ integration easier at UPF.

For more information check their webpage http://esnupf.org/ or write to upf.esn@gmail.com or mentor.program@esnalaupf.org

Sports activities, cultural activities, etc

The University Community Assistance Service (SACU) is in charge of both cultural and sports activities. They offer a wide range of activities every academic year.
