TEACHING PLAN FOR

INTERNATIONAL MANAGEMENT

1. Basic Description

Name of the course: International Management
Academic year: 2017–2018
Term: 1st
Degree / Course: International Business Programme (IBP)
Code: 80124
Number of ECTS credits: 6
Total number of hours committed: 150
Teaching language: English
Lecturer:
Sergio Costa Sant’Anna
European Commision Expert
MBA, IESE Business School (Spain)
MBA, Thunderbird School of Global Management (USA)

e-mail: sergio.costa@prof.escri.upf.edu

Timetable:
Tuesday 6.00–8.15 pm
Thursday 6.00–8.15 pm

Office hours:
Group 1:
Thursday 8.15 –9.15 pm or by appointment

2. Course Overview

The International Management course focuses on the opportunities and challenges created by globalisation. It examines a series of cross-cultural and management issues related to management in an international marketplace. The aim of this course is to enable students to analyse and understand the opportunities and challenges that companies face when expanding their activities internationally and when dealing with international competitors in
their home markets. Special attention is placed upon the different tools and analytic competences available to the different specialised managerial roles when competing internationally.

The course comprises three segments. The first builds a better understanding of the challenges in the international environment. It focuses on the analysis of country differences in political economy and political risks as well as cultural and social heterogeneities. In this segment, the course covers the major facets of the international management environment (legal, political, economic and cultural). The central debates surrounding the cultural construct, formal and informal institutions, economic development and regional integrations are presented in class, along with the major frameworks that have been used to describe these phenomena.

Students are exposed to a range of ideas about cultural values in different nations, and learn how those values influence management and organisational practices.

The readings build upon students’ existing knowledge of the functioning of American, Western European and Asian business organisations, and help them develop an understanding of how organisations function in a wide variety of cultures.

The second segment of the course builds on the first section and analyses global organisational forms and international strategies. It focuses on the strategic challenges confronting firms that compete in the global economy. It aims to develop understanding of how to gain a competitive advantage and compete successfully in the international marketplace. In other words, it explores the most fundamental question in international strategic management: What determines whether companies succeed or fail internationally?

Finally, the third segment deals with international management operations and covers an array of organisational issues such as human resource staffing and motivating a multicultural workforce, global marketing, design of global products and services, global R&D and financing and accountability.

This is a core course in the ESCI-UPF International Business Programme, which is designed primarily for applicants who have a major or a minor in business.

Generally, students pursuing any degree in Business Administration or Economics should not need any prerequisite. Applicants pursuing degrees in other areas should make sure they have taken Business Organisation or an equivalent course.
3. Competences to Be Worked on in the Course

 Own competences of the subject:

a. An awareness of and an interest in how formal and informal institutions impact business decisions.

b. An in-depth knowledge of analytical frameworks used in the screening of national markets (defining the key factors in a firm’s internationalisation process by evaluating the international business environment, stressing particularly the economic and cultural dimensions).

c. An enhanced understanding of what determines the success and failure of companies around the globe.

d. An ability to invoke different management theories (e.g. resource-based view, stakeholder theory and institutional theory) to understand what lies behind different firm performances around the world.

e. An understanding of the “other side” of international business, namely, local firms that often compete and/or collaborate with foreign entrants, especially in emerging economies.

f. An ability to recognise the tensions in adopting global standardised actions as opposed to locally responsive actions in international management and relate these to the companies’ overall corporate strategy.

g. A disposition to consider ethical and social responsibility issues in the development and implementation of an international management strategy.
### General competences

**Instrumental competences**

G.I.2. Ability to relate concepts and knowledge from different areas.
G.I.3. Ability to organise and plan.
G.I.5. Ability to take decisions in complex and changing situations.

**General personal competences**

G.P.1. Ability to adapt and work in and lead international, multicultural, interdisciplinary, competitive, changing and complex groups.

**Generic systemic competences**

G.S.4. Entrepreneurial ability.
G.S.7. Promotion of and respect for multicultural values: respect, equality, solidarity, commitment.
G.S.8. Promotion and respect for gender, environmental and safety at work issues.

**Competences for applicability**

G.A.4. Ability to understand and apply the network concept.

### Specific competences

**Disciplinary competences**

E.D.8. Analyse the organisation of businesses based on economic principles that make it possible to identify the most determining factors in results.

**Professional competences**

E.P.2. Ability to analyse economic and market indicators when taking decisions within the organisation.
E.P.5. Ability to take strategic business decisions that take into account economic, cultural, social and political determinants specific to each area.
E.P.7. Illustrate the reality of business by using activities such as assignments and lectures or by preparing case studies.
E.P.8. Be able to take functional decisions within an organisation with international activity.
E.P.17. Be able to express oneself and understand spoken and written communication in English at an advanced level to apply it to the international business area.

### 4. Contents

I. INTERNATIONAL ENVIRONMENT CHALLENGES

➢ Globalisation

➢ International Business Environment
  i. The Global Trade
  ii. Foreign Direct Investment
  iii. Developed Countries Investing in Emerging Markets
  iv. National X International Markets
  v. Internationalisation Theories
  vi. Regional Economic Integrations and International Multilateral Institutions
  vii. Global Growth Generators. Emerging Economies: The Case of Brazil, Russia, India and China (BRICs)
International Trade Theories
i. Trading Strategies and Methods
ii. International Regulatory Framework
iii. Technical Standards
iv. The Export and Import Process. Strategy and Management

International Management Structures
i. Management Styles
ii. Simple Functional Organisations to Divisional or Matrix Structures

Global Leadership | Global Entrepreneur
i. Practical Examples from Different Business Environments

Managing Cultural Diversity
i. Theory
ii. CAGE Distance Framework.
iii. Cross Cultural Business Communication
iv. The Case of Brazil, Russia, India and China (BRICs)
v. Business Environment
vi. Business Etiquette
vii. Business Cultural Barriers
viii. Negotiation Techniques

II. THE STRATEGY AND STRUCTURE OF INTERNATIONAL BUSINESS

Understanding Global Strategy
i. Fundamentals of International Strategic Management
   a) Strategies, Main Strategic Choices, Value Chain, Tools: PEST, SWOT, Porter 5 Forces, CAGE

Identifying International Market Attractiveness and Competitive Strength. Breaking into Foreign Markets
1. The International Market Selection Process
2. Identifying International Market Attractiveness and Competitive Strength
3. Building a Model for International Market Selection
4. Managing for Competitive Advantage

Managing Strategic Alliances. Managing International Assets and Risk
a) Strategic Alliances
   • Agents
   • Franchising/Licensing
   • Manufacturing Contract
   • Joint Ventures
Managing Strategic Alliances
i. Making Strategic Alliances and Networks Work
ii. Diversifying, Acquiring and Restructuring
iii. Strategising with Corporate Social Responsibility

International Business Contracts and Conduct
i. Overview of Business Contracts
ii. Extraterritorial Application of Laws
iii. Bribery and Corruption in Different International Cultural Environments
iv. Mediation, Arbitration and Litigation

III. INTERNATIONAL BUSINESS OPERATIONS

Distribution Decisions in the International Market
i. Managing and Controlling Distribution Channels
ii. Value Chain
iii. Technical Regulations
   ➢ Designing Global Products and Services
   ➢ Global Production, Outsourcing and Logistics
   ➢ International Pricing Strategies
   i. Skimming, Market Pricing, Penetration Pricing, Price Changes
   ii. Factors Influencing International Pricing Decisions

International HR Management. Building an International Workforce
i. Importance of Skill-Building
ii. Recruitment Issues
iii. Hiring Strategies
iv. Training Strategies
v. Developing Managers
vi. Retaining People

5. Assessment

Regular term evaluation

During the term you will be evaluated as indicated in the table below.

a. Each assessment element is scored with a grade between 0 and 10, to one decimal place.
   Zero is the lowest grade and ten is the highest grade.
b. The final grade for the course is calculated by adding the grades obtained for each element multiplied by their assigned weights.

c. The final grade of the course is reported on the scale from 0 to 10, to one decimal place. Students whose final grade is equal to or greater than 5.0 will pass the course.

d. In addition to your numerical final grades, you will also be given descriptive grades:

- No Show
- \( \leq 4.9 \) Fail
- 5.0–6.9 Pass
- 7.0–8.9 Very Good
- 9.0–10.0 Excellent

<table>
<thead>
<tr>
<th>Assessment elements</th>
<th>Type of assessment</th>
<th>Individual</th>
<th>Group</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Final exam</td>
<td>Mandatory</td>
<td>Individual</td>
<td></td>
<td>40%</td>
</tr>
<tr>
<td>Final project</td>
<td>Mandatory (min 50%)</td>
<td>Group</td>
<td></td>
<td>30%</td>
</tr>
<tr>
<td>Case studies / presentation</td>
<td>Mandatory</td>
<td>Individual</td>
<td>Group</td>
<td>25%</td>
</tr>
<tr>
<td>Assignment in class</td>
<td>Optional</td>
<td>Group</td>
<td></td>
<td>5%</td>
</tr>
<tr>
<td>Participation in class (bonus)</td>
<td></td>
<td></td>
<td></td>
<td>10%</td>
</tr>
</tbody>
</table>

e. The assessment elements are either Mandatory or Optional. For Mandatory assessment elements students must score a minimum grade to pass the course. Optional assessment elements do not require a minimum passing grade. However, any uncompleted Optional assessment elements will still count towards your final course grade.

f. Please DO NOT BOOK tickets for your flight home before the dates for the final exams are announced. Even if you have a ticket and a valid reason, ESCI-UPF will NOT PROVIDE ALTERNATIVE DATES for the final exam.

g. Your continuous evaluation grade (assignments + class preparation + final group project) must be 4.0 or greater AND your final group project grade must be 5.0 or greater before you can be entered for the final exam. If either of these two conditions is not met, you will not be allowed to take the final exam and the lower of the two grades will become your final course grade.
h. In order to pass the course, you must take the final exam. If you do not take the final exam, your final course grade will be "No Show", irrespective of your grades in the other evaluation elements.

i. To obtain a passing course grade, your final exam grade must be equal to or greater than 4.0. If your final exam grade is less than 4.0, the final exam grade becomes your final course grade, irrespective of your other grades.

j. The final exam is cumulative: it covers all the material covered during the term.

k. The class preparation grading element evaluates your preparation for the case and article discussions. Missing classes or coming to classes unprepared may lower your grade for this evaluation element. A missed class, whether justified or unjustified, counts as an unprepared class. Failure to actively participate in group and class activities during the discussions of cases and articles will be considered as an indication that you have not prepared for the class. The final grade for this element will be determined by eliminating the lowest 20% of graded classes and averaging the remaining 80% of classes. Thus, a student who misses up to 4 classes (8 hours) may still obtain a maximum grade for this grading element.

l. There will be neither individual make-up work nor extra credit work assigned if you fail any of obligatory grading elements, are unable to attend the final exam or obtain a grade below your expectations.

m. All students in a group receive the same grade for any group work. However, the peer evaluation you perform as part of the final exam will be used to adjust group grades for individuals who have contributed more than their fair share of work (their grades will be higher than the grade given to the rest of the group members) and those who didn’t contribute their fair share of work (their grades will be lower than the grade given to the rest of the group members).

n. Participation in this course is evaluated as an extra credit that can add up to 10% to your final grade (the default grade is zero). If you don’t say a word during the classes or you have irregular attendance (below 80%), your participation grade will be zero. However, you still may obtain a maximum final course grade. Participation grade is based exclusively on your CONTRIBUTION during class discussions.

My experience with courses evaluated on a continuous basis (like this one) is that it is hard to fail but it is also hard to obtain a very high mark. So, if you are keen to get a good average grade, take this element seriously as it can compensate for losses of grades in other elements.

Furthermore, do not think of this grade as an entitlement or a gift: it has to be EARNED. Finally, do not confuse attendance with participation. A student can have a perfect attendance record and still score zero for participation. Effective class participation is assessed by asking questions such as these:
1. Is the participant a good listener?

2. Are their points relevant to the discussion? Are they linked to the comments of others?

3. Do the comments add to our understanding of the situation?

4. Do the comments show evidence of analysis of the case?

5. Does the participant distinguish between different kinds of data (i.e. facts, opinions, beliefs, concepts, etc.)?

6. Is there a willingness to share?

7. Is there a willingness to test new ideas, or are all comments "safe" (e.g. repetition of case facts without analysis and conclusions or a comment already made by a colleague)?

8. Is the participant willing to interact with other class members?

9. Do their comments clarify and highlight the important aspects of earlier comments and lead to a clearer statement of the concepts being covered?

The above questions deal with both the process of class participation and (of equal or greater concern) the content of what you say. Remember: both quality and frequency are important, but quantity never can make up for low quality.

Retakes

Students who obtained a grade below 4.0 in their final exam will be allowed to retake it in January, in accordance with the ESCI-UPF calendar and academic regulations. This make-up exam can only be sat on ESCI-UPF premises: it cannot be done remotely.

You may only retake your final exam during this session. All other grades stay unchanged and cannot be compensated by extra work. To pass the make-up exam, you must obtain a minimum score of 4.0. If you pass the make-up exam, your final course grade will be determined using the regular course assessment rules as outlined above. If your score in the make-up exam is below 4.0, this score will become your final course grade. Any participation bonus grade is set to zero if you have to sit the make-up exam.

Any students found copying and/or plagiarising work, in whole or in part, will fail the subject. They will receive a final grade of zero and will not be allowed to take the make-up exam. In accordance with the UPF Disciplinary Rules and Regulations for Students, other additional sanctions may apply depending on the seriousness of the offence.
6. Bibliography and Teaching Resources

• Basic REQUIRED bibliography

• Supplementary bibliography

International Chamber of Commerce. *Incoterm® 2010*.

**Teaching resources**

Posted on the course intranet site:

- Supplementary teaching cases
- PowerPoint slides (short version)
- Supplementary articles

Other:

- Supplementary video cases (web link provided when possible)

Students are required to read all the assigned cases and articles. The main required texts for this course are the following:

In addition, the supplementary reading list features some of the books you might want to refer to during the course (or afterwards) for further reading on the topics covered in class.
7. Methodology

In this class, we will take an active learning approach. This approach requires students to prepare for EVERY lesson. In other words, you should do the assigned readings and case studies (on average 4 or more readings per week), think about the issues discussed in the assigned readings, and be prepared to contribute to the class discussion. As instructor, my primary role is to facilitate the learning process. While you will have formal lectures, the main learning will be achieved through case and article preparations, class discussions and work on assignments.

The course is composed of a mixture of theory classes, case and article analyses and discussions, class assignment (on cross-cultural business communication) and a group project work. Given that the class is taught in English, all class material will be available in English only. Students will be provided with the cases, readings, exercises and lectures before the class via the intranet Moodle site (AULA ESCI-UPF).

**Theory classes**

The objective of theory classes is to understand the main issues related to International Management and consider all relevant elements in developing and implementing effective international strategies and organisational policies. For each topic, I will provide a set of PowerPoint slides (short version). These slides will be posted on AULA ESCI-UPF after the class. While we will not discuss every single slide or spend equal time on each slide, you are expected to be familiar with ALL the material covered in the slides.

**Case studies**

The objective of case presentations, discussions and analyses is to develop the necessary abilities to apply previously acquired concepts to a specific situation. The case studies put you in the shoes of a decision maker: you have to perform the appropriate analysis and then make a recommendation. Beyond the International Management–related content, you benefit by improving your problem-solving ability, your ability to think on your feet and your powers of persuasion to move others towards your point of view.

A case-study course involves continuous student-to-student and student-to-instructor discussion. Much of the learning occurs during the class, as students work through what they prepared in advance, ask questions about it, and improve on it.

To get the most out of the class you must prepare conscientiously and participate actively in class discussions. Failure to participate robs others of your perspective and increases the chances that the discussion will not be relevant to your interests and abilities. So please participate actively.

So what is conscientious case preparation? Read the case through thoroughly; identify the main issues to be addressed in the case; attempt to analyse these issues using your common sense and any appropriate tools or techniques; and note any action recommendations implied by your analysis. Alternatively, if you find yourself hitting a roadblock, try to articulate what your problem is. Identifying roadblocks is as often valuable as a complete analysis.

For each case assigned, I will provide the questions to be answered and the points to be addressed in the group PowerPoint presentation. The questions play several roles, which vary depending on the case in question.

Usually the questions are simply to help you get started on your analysis. You should not feel constrained by them, nor should you assume that answering all of the preparation questions necessarily constitutes a complete analysis. My general advice is always to read the preparation questions, but do not feel overly constrained by them.
On Moodle you will find the guidelines for the case studies group presentations for each specific session plus the questions to be answered by all groups.

In class I tend to switch between asking for volunteers and calling on individuals. If you are not prepared, please notify me before the class, and we can both avoid some embarrassment. If you have spent time preparing the case, but still feel unsure of your opinions, count yourself prepared. If you have made the effort, you should never feel embarrassed by the result.

**News, articles and professional papers**

The objective of article discussions is to develop the ability to analyse current issues in International Management as well as to keep abreast of recent socioeconomic developments and link them to the class material. The course outline at the end of this document lists the required articles, but additional articles from various relevant sources (e.g. *The Economist* and the *Financial Times*) will be posted on AULA ESCI-UPF and will serve to initiate discussions, either in the classroom or on the intranet site.

**Practical exercise on cross-cultural business communication**

We will play a practical exercise in class on cross-cultural business communication. The purpose of this exercise is to sharpen your cross-cultural business skills and apply the knowledge acquired in the lectures to real-life situations.

**Final group project work**

During the course you will have to give a group presentation on a topic related to the content of the course. Working on these assignments should:

- Allow you to practise the concepts covered in class to help you learn and understand them better, mainly by appreciating what their practical application means for real business life.
- Motivate you to learn more about specific industries and sectors.
- Sharpen your analytical skills.
- Apply the theory in practical business life situations.
- Help you become better in dealing with ambiguity.
- Encourage you to learn how to make recommendations and how to justify your opinions.
- Improve your teamwork skills.
- Give you an opportunity to improve your written and spoken English.
• Present you with an opportunity for public speaking in front of a relatively friendly audience.

**8. Clarifying Expectations**

**MY EXPECTATIONS**

**Class Preparation.** I expect you to come to classes prepared. This includes reading the assigned cases, articles and books. Your preparation will count towards a significant part of your participation mark. While participation during the classes is predominantly voluntary, I also practise “cold calling”. This means that anyone may be asked to answer any question. Fear of public speaking will not be accepted as an excuse.

**Punctuality and Deadlines.** I expect you to be on time for classes. I understand that, due to unforeseen circumstances, you may be occasionally late. If possible, please let me know in advance if you are going to be late. Being habitually late is a good way of losing goodwill (e.g. not performing well on class participation). Deadlines will always be strictly enforced and no exceptions of any kind will be made without prior approval.
**Attendance.** I expect you to attend classes regularly. I understand that, due to unforeseen circumstances, you may be occasionally absent. If possible, please let me know in advance if you are going to be absent. Being habitually absent and/or being absent without a valid reason is a good way of losing goodwill (e.g. not performing well on class participation). Being absent does not excuse you from any deadline. It is your responsibility to ensure that I receive the required material in the specified format by the given deadline, even if you are not present. If your attendance falls below 80% (more than 4 absences or 8 hours), your participation extra credit will be set to zero.

**Class Discipline.** It is of the utmost importance that you respect your classmates and the lecturer by allowing them to work and study in a professional environment. You are expected to exhibit the highest levels of professionalism and courtesy in and out of class. Minimum behavioural expectations include the following:

- Turn off mobile phones while in class.
- Arrive punctually (if you arrive late or have to leave early, please find a seat close to the door in a non-disruptive manner).
- Keep private conversations to a minimum.
- According to ESCI-UPF rules, lecturers may ask student(s) to leave the classroom. If you are asked to leave the classroom, your attendance sheet will be marked as “Expelled” (counts as two unjustified absences) and you will be asked to meet with the programme coordinator.

**Intranet (AULA ESCI-UPF).** It is students’ responsibility to ensure timely access to AULA ESCI-UPF (https://aula.esci.upf.edu/login/index.php?lang=en). You are expected to obtain AULA ESCI-UPF access as soon as possible, and it is your responsibility to do so. All class material will be posted on AULA ESCI-UPF and no material will be printed. The fact that you have not obtained access to AULA ESCI-UPF will not be accepted as an excuse for not doing the required coursework.

**Internet-Enabled Devices:** Students must bring some type of internet-enabled device (e.g. laptop, tablet or smartphone) to the class WHEN INSTRUCTED. Class materials will be available exclusively on line. For the remainder of the class, use of any of these devices is allowed ONLY for class-related activities (e.g. taking notes). If you are found using these devices for any other purpose, especially for activities that distract your classmates, you may be asked to leave the classroom.

**Academic Integrity.** ESCI-UPF expects the highest levels of responsibility and academic honesty from its students. Given that the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that students demonstrate high standards of individual honour in their academic work. As a general rule, academic dishonesty involves any of the following acts: cheating, plagiarism, collusion and/or falsifying academic records. Students suspected of academic dishonesty will face disciplinary proceedings. Plagiarism, be it from the internet, papers for other classes or any other source, is unacceptable: you must always cite your sources.
YOUR EXPECTATIONS

Responsiveness and Feedback. You should expect that any questions and concerns you raise with me will be answered, addressed and responded to. Besides formal feedback mechanisms, feel free to jot me an e-mail with any questions or feedback. I will try my best to respond as speedily as I possibly can. If you need to talk to me, you can send me an e-mail requesting to meet either before or after the class and I will schedule time to talk to you. Although I am usually available before and after the class for impromptu questions and consultations, unless you previously request to meet, you need to be prepared for the possibility that I may ask you to postpone the conversation for another day due to my previously scheduled obligations.

Punctuality. You should expect me to start and finish classes on time. If we need extra time to cover materials, or need to organise an extra session, I will only do so if the majority of the class agrees.

Preparation and Rigour. You should expect the most up-to-date and rigorous materials to be covered in class.

Guidelines and Expectations. For all assignments, exams and other course materials, I will state my expectations as clearly as possible. If either of us finds that the other party has been violating expectations, it is our duty to inform the other party as promptly and in as fair a manner as possible.
