

Carla Rampichini PhD is Full Professor of Statistics at the University of Florence. Her teaching activity focuses on introductory statistics, multivariate analysis and statistical modelling, including generalized linear models and multilevel models. She is a member of the board of the PhD in Economics at the University of Florence. Her research interests relate to random effects models for multilevel analysis, program evaluation, and causal inference. Her methodological work is joined with applications on real data, often concerning the effectiveness of universities. She is member of the Royal Statistical Society and of the Italian Statistical Society. She is co-editor of *Statistical Methods and Applications* and she has served as referee for many national and international journals.
