Objectives

- Create and update researchers' profiles and identifiers so as to disseminate and give impact to scientific output
- Provide information that helps you make the right decisions when managing your digital identity on the net and criteria to select from the wide range of profiles and networks.

Contents

1. What does Google know about you?
2. Do you have a signature that clearly identifies you? There are different researcher-ids that provide solutions to the author ambiguity problem within the scholarly research community
3. Set up and/or update your ORCID-ID, Scopus-ID, Researcher-ID and Google Scholar profile

4. Other tools for disseminating scientific output: Academia.edu, LinkedIn, Mendeley, ResearchGate, among others
5. How to update your profile in the Scientific Output Portal (PPC) and UPF e-mail signature (only for teaching and research staff)
6. Final recommendations

Methodology

Participants will analyze real profiles and improve their own. They are expected to take part in the workshop.
