Re: Admission by COP 24 of observer organizations

Dear Madam/Sir,

In reference to your application for observer status in the UNFCCC process, the secretariat is pleased to inform you that the Conference of the Parties (COP) at its twenty-fourth session has admitted your organization to the UNFCCC process as an observer organization. The admitted organizations are listed in document FCCC/CP/2018/2 (attached for your reference). Congratulations. The secretariat looks forward to your contribution to the UNFCCC process.

With respect to rules 6 and 7 of the draft rules of procedure being applied, a single process is used for the admission of observer organizations to sessions of the COP, the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol¹ and the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement,² with decisions on the admission of observer organizations being taken by the COP.

Please note that this admission status accords your organization the right to nominate by a specified deadline the representatives of your organization to a UNFCCC conference and does not automatically guarantee accreditation to each conference. Kindly follow the instructions and deadlines for registration for each conference that will be detailed in respective information notes and notifications. The official communication will be sent to the designated contact point that your organization designates and registers for the secretariat database. It is the responsibility of your organization to keep these contact details up to date. For any future changes in contact details, please send in the contact details form available on the IGO³ and NGO⁴ web pages of the UNFCCC website respectively. Additionally, it is important for your organization to regularly consult these web pages for updates on dates and deadlines, including application deadlines for side events and exhibits. These dates are announced on the webpage only as they are not mandated activities of the secretariat.

It is also important that all representatives of observer organizations fully comply with policies and guidelines on the participation in the UNFCCC process. They are available on the IGO and NGO web pages of the UNFCCC website, referenced above, including the “Guidelines for the participation of representatives of non-governmental organizations at meetings of the bodies of the United Nations Framework Convention on Climate Change”⁵.

Kindly also note that admission as observer organization does not, in any way, entitle your organization to the use of the UNFCCC logo. For any use of the logo, prior written permission from the UNFCCC must be obtained.

The secretariat welcomes your engagement in the UNFCCC process and looks forward to working with you for its future sessions.

Please contact the Climate Observer Organizations Liaison team at cool@unfccc.int should you have any questions or inquiries.

Yours sincerely,

Signed by

Conference of the Parties
Twenty-fourth session
Katowice, 2–14 December 2018

Item X of the provisional agenda

**Admission of observers: organizations applying for
admission as observers**

Note by the secretariat

1. The admission of intergovernmental organizations (IGOs) and non-governmental organizations (NGOs) as observers at sessions of the Conference of the Parties (COP) is governed by Article 7, paragraph 6, of the Convention, which provides that, inter alia:

“Any body or agency, whether national or international, governmental or non-governmental, which is qualified in matters covered by the Convention, and which has informed the secretariat of its wish to be represented at a session of the Conference of the Parties as an observer, may be so admitted unless at least one third of the Parties present object.”

2. COP 1 agreed¹ that the secretariat should invite to future sessions of the COP and its subsidiary bodies all IGOs and NGOs admitted at COP 1 and at future sessions unless an objection was raised to any particular organization in accordance with the Convention and the draft rules of procedure being applied.² Consequently, the secretariat has notified all organizations admitted to previous sessions of the COP (with the exception of those admitted to a single session only) of the date and venue of COP 24 in accordance with rule 8 of the draft rules of procedure being applied, without prejudging decisions that may be taken by the COP. Only new applicants need to apply for admission.

3. The secretariat has prepared, for consideration by the COP, a list of new applicant IGOs and NGOs that have expressed a wish to be represented at sessions of the COP and its subsidiary bodies as observers and satisfy the requirements set out in (1) the Convention, (2) the draft rules of procedure being applied and (3) established practice (see the annex).

4. In drawing up the list, the secretariat has taken due account of the provisions of Article 7, paragraph 6, of the Convention and rules 7 and 8 of the draft rules of procedure being applied, as well as of the established practice, of which the Subsidiary Body for Implementation took note,³ whereby IGOs and NGOs are required to provide proof of competence in matters related to the Convention and to confirm their independent juridical personality and non-profit and/or tax-exempt status in a State Member of the United

Nations, of one of its specialized agencies or of the International Atomic Energy Agency, or in a State party to the Statute of the International Court of Justice.

5. The members of the Bureau have received the list of new applicants and have not raised any objections to the organizations listed. The organizations have been advised of their provisional admittance status on the understanding that the final authority for their admission as observers rests with the COP. COP 24 is invited, at its 1st meeting, to accord observer status to the IGOs and NGOs listed in the annex.

6. With respect to rules 6 and 7 of the draft rules of procedure being applied, a single process is used for the admission of observer organizations to sessions of the COP, the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol⁴ and the Conference of the Parties serving as the meeting of the Parties to the Paris Agreement,⁵ with decisions on the admission of observer organizations being taken by the COP.
